SM AirSeT range

Design according to Standards

We undersigned, SCHNEIDER ELECTRIC INDUSTRIES SAS, declare that the above-mentioned ranges, are designed according to the following IEC (International Electrotechnical Commission) Standards:

IEC 62271-1	<i>High-voltage switchgear and controlgear - Part 1: Common specifications for alternating current switchgear and controlgear</i>
IEC 62271-200	<i>High-voltage switchgear and controlgear - Part 200: AC metal-enclosed switchgear and controlgear for rated voltages above 1 kV and up to and including 52 kV</i>
IEC 62271-100	<i>High-voltage switchgear and controlgear - Part 100: Alternating-current circuit-breakers</i>
IEC 62271-102	<i>High-voltage switchgear and controlgear - Part 102: Alternating current disconnectors and earthing switches</i>
IEC 62271-103	<i>High-voltage switchgear and controlgear - Part 103: Switches for rated voltages above 1 kV up to and including 52 kV</i>
IEC 62271-105	<i>High-voltage switchgear and controlgear - Part 105: Alternating current switch-fuse combinations for rated voltages above 1 kV up to and including 52 kV</i>

SM AirSeT products may only be used for the applications described in the catalog and in the relevant technical documentation. Proper transport, storage, installation, assembly, commissioning, operation and maintenance are required to ensure that the products operate safely and without any problems.
