

DESCRIPTION

PRODUCT COVERED:

Listed Accessory Uninterruptible Power Supply Module, Model SYPM Symmetra Power Module, For Use With the Symmetra Uninterruptible Power Supply System.

ENGINEERING CONSIDERATIONS (NOT FOR UL REPRESENTATIVE USE):

The products covered by this report are uninterruptible power supply modules intended for installation within the Symmetra Uninterruptible Power Supply System. All components are housed in a metal enclosure. Power is brought into and out of this module by connectors that mate with connectors in the backplane of the Uninterruptible Power Supply System.

Installation of the modules into the Symmetra system is performed by the operator. The installation instructions for field assembly is contained in the Instruction Manual provided with the Symmetra system.

ELECTRICAL RATINGS:

Input: 200-240 V, 10, 20 A, 50-60 Hz.

Output: 200/220/230/240 V, 10, 20 A, 50-60 Hz, 4 kVA, 2.8 kW.
