APC Connected Products

APC™ by Schneider Electric™ delivers Certainty in a Connected World with offers that help home and business provide reliable and efficient power solutions for IT and communications technologies.

NetShelter Master Range
Standard and custom racks for IT equipment in any environment

APC NetShelter™ rack systems offer standard and custom full, half, and wall rack enclosures designed to house critical IT infrastructure in IT, commercial, and industrial environments. NetShelter rack systems are built to last, highly secure, and simple to configure.

NetShelter Racks & Enclosures
Network and server rack enclosures

Open and enclosed server rack and network rack solutions for a variety of environments including data centers, server rooms, network closets, offices, industrial, and specialty applications.

NetShelter Rack Power Distribution
Basic and intelligent Rack PDUs

Rack PDUs provide server-level power availability with a variety of power metering and control options as well as environmental monitoring capability.

NetBotz Security & Environmental Monitoring
Security & Environmental appliances and sensors/cameras/accessories

NetBotz™ consists of rack mount and wall mount appliances designed to provide a wide range of integrated environmental monitoring and surveillance for sensitive equipment.

NetShelter Server Access
KVMs, rack LCD consoles, and switches

Manage multiple servers from a single location with rack LCD consoles, KVM switches, and Ethernet switches.

NetShelter Data Center Containment
Managing airflow for rows, racks and hot spots

Data Center Containment solutions are designed to increase cooling system efficiency while protecting critical IT equipment and personnel.
NetShelter Enclosures & Rack Systems Applications and Selection

Today’s wide range of IT applications and environments demand a variety of rack infrastructures that can mount a mix of different equipment and efficiently manage, monitor, and control IT anywhere in an enterprise.

Racks and enclosures: the building blocks of every IT environment

Trends like edge computing, virtualization, consolidation, convergence, and blade server adoption are forcing different types of equipment to share the same space and in varying environments whether inside or outside the data center space. Edge deployments let organizations leverage the benefits of the Internet of Things by placing compute power and analysis closer to the action.

Whether it’s an industrial warehouse, network closet, server room, or data center of any size, IT operations rely on racks and enclosures for support, organization, and management of rack-mount equipment. Servers, storage, switches, routers, PDUs, console port servers, KVM switches - Today’s racks and enclosures are expected to exist in more environments and support a greater number and variety of applications and devices (em dash) servers, storage, switches, routers, PDUs, console port servers, and KVM switches.

NetShelter SX Enclosures

The world’s most versatile rack enclosure for demanding IT environments

Ready for high-density and edge environments right out of the box, NetShelter SX rack enclosures offer the most standard features on the market today. Influenced by over 15 years of customer feedback and over 1 million units sold, Schneider Electric has specifically engineered the next-generation NetShelter SX enclosure to handle a broad range of applications from power-hungry, high-density server and networking applications to remote edge computing applications.

The NetShelter SX is the base building block of the EcoStruxure™ Data Center Solutions. NetShelter SX has many inherent features that facilitate a faster installation and reduce handling after installation, lowering your installation and operating costs. In addition, the homogenous appearance of the NetShelter SX and its sister components in an EcoStruxure solution provides a clean, consistent look that first-rate data centers require.

Edge computing applications

Edge deployments let organizations leverage the benefits of IoT by placing compute power and analysis closer to the action. Whether you’re running a network of retail stores, a group of geographically dispersed factories, or a remote oil pipeline, edge computing enables real-time decision-making whereas in cloud environments, data experiences latency as it travels hundreds or thousands of miles to data centers. An edge environment eliminates latency issues.

Rack enclosure systems for converged IT

With IT hardware trending toward converged infrastructure (CI) and single-source IT providers, a simplified prebuilt and pretested solution is in demand. Customers are looking for solutions that deliver fully populated IT racks — whether to the customer site or a colocation facility.

Schneider Electric rack systems are optimized for this situation. Special packaging options for NetShelter SX enable integrators to “rack and stack” the solution for a truly end-to-end converged system delivered prebuilt, pretested, racked, and shipped to the end customer.

Features

Best-in-class design
- Offers most standard features to facilitate installation and speed of deployment.
- Integrates seamlessly with the full line of EcoStruxure components.

Greatest flexibility
- Available in a wide range of heights, widths, and depths to meet a variety of data center and edge computing applications.
- Rapid installation of vertical rack PDUs in the rear vertical zero-U accessory channel of NetShelter enclosures.

Superior cable management capabilities
- Accommodates high-density networking and blade applications.
- Easy installation to enable faster and easier moves, adds, and changes.
- Promotes proper airflow to improve cooling efficiency.
NetShelter SX Enclosure Features

More standard features for faster installation

1. **Cable access roof**
   - Eight cable entry slots
   - Toolless mounting of overhead cable trough system
   - Snap-in mounting to allow easy roof removal and installation with cables in place

2. **Integrated baying brackets**
   - Preinstalled on frame, front and back
   - Spacing options at 24 in. (600 mm)
   - Bays with other Schneider Electric power and cooling products

3. **Preinstalled leveling feet and casters**
   - Easily adjustable leveling from top-down
   - Casters standard on all enclosures

4. **Toolless, zero-U accessory channel**
   - Toollessly mount rack PDUs
   - Toollessly mount vertical cable organizers

5. **Easily adjustable vertical mounting rails**
   - Simple screw and cam engagement
   - Captive screws — no loose hardware
   - Easy visual alignment for quick adjustment
   - Adjust in 0.25 in. (6 mm) increments through enclosure
   - Hole cutouts for 0U installation (AR8469) of Data Distribution Cable (DDC) accessories

6. **Half-height side panels**
   - Easy and safe handling
   - Quick release latch
   - Lockable — same key as doors
   - Enclosure width remains the same with or without sides attached

Other standard features include:

- Integrated electrical bonding of sides, doors, roof, and rails to frame
- Ventilated front and rear doors
- Split-rear ventilated rear doors for better clearance in hot aisle
- Numbered U positions front and back
- Open bottom for unobstructed under-floor access
- 1700 kg (3,750 lb) static load, 1020 kg (2,250 lb) dynamic (rolling) load*
- UL Listed
- Electronic Industries Association (EIA)/ECA-310-E compliant
- Meets IBC® seismic requirements with proper bolt-down hardware

*Excluding 12, 18, and 24U heights

Available as a complete Micro Data Center with integrated power.

Take the NetShelter SX 3D tour.
NetShelter SX Enclosures Selection

Applications for height
- 12, 18, and 24U enclosures — Remote offices and small spaces.
- 42U enclosures — Standard height used globally, designed to fit through standard doorways.
- 45U enclosures — Enclosures with additional U-spaces for environments that standardize on a 45U, 7 ft. (213 cm) enclosure height.
- 48, and 52U enclosures — More U-spaces for more equipment in the same footprint.

Applications for width
- 24 in. (600 mm) wide enclosures are the standard for most server applications. For higher densities, a deeper enclosure may be required.
- 30 in. (750 mm) wide enclosures offer more space for high-capacity cable management and power distribution. Typically, wider enclosures are used for networking applications but the extra side space is often requested in blade server applications.

Applications for depth
- 32.5 in. (825 mm) is the preferred depth for AV equipment. 42 in. (1070 mm) is the standard depth and meets most low- to medium-density applications.
- 48 in. (1200 mm) deep enclosures are becoming the new standard because of increasing server depth crowding cable and power space.

1. The following can be preconfigured without standard doors and side panels. Reference part numbers AR3_ _ _ X610 for no doors, and AR3 _ _ _ X617 for no sides/no doors. More configurations are available; contact your local APC sales representative for more information.
2. TAA compliant enclosure available.
3. White enclosure available.
4. Shock packaging available for shipping enclosures with equipment installed. Check apc.com for allowable equipment weight amounts.
NetShelter SX Networking Enclosures

Optimized NetShelter SX design for enhanced networking application support and a superior solution for side airflow networking switches

1. **Cable access roof**
   - Extra-large cable access slots for high-density cabling and brush strips for air containment
   - Two spring-loaded pins allow for easy roof removal and installation with cables in place

2. **Networking-style mounting rails**
   - Easily align rails that adjust in 0.25 in. (6mm) increments
   - Left vertical mounting rail contains additional cable channel
   - Rail position preset to accommodate Cisco switches and cable management

3. **Preinstalled vertical cable managers**
   - Front vertical mounting rails feature preinstalled, single-sided vertical cable managers
   - Smooth plastic fingers provide proper bend radius for cables

4. **Vertical mounting rails for side-to-side airflow**
   - Front-right vertical mounting rail open for improved side airflow

---

**Side airflow cooling**
- Support cooling for small and large networking switches mounted within an enclosure.
- Side airflow solution (AR7742/AR7747) for Cisco® Nexus 7018

**All solutions**
- Direct cool air at the front of the enclosure directly and predictably to the intake at the side-of-side airflow switches
- Consist of two duct assemblies that act as diverters using the existing fan power of the switch
- Contain a system of baffles located throughout the enclosure to mitigate exhaust air from recirculating back into the air intake

The NetShelter SX3K is designed to handle the heaviest of IT loads – converged, hyperconverged, hyperscale, and data storage.

Includes a cabinet and shipping solution that allows complete integration and shipping of costly IT systems to your site or a colocation site for immediate plug-and-play with no added installation, setup, or downtime.

**Industry leading dynamic shipping rating**

- Load, transport, unload, and deploy a cabinet with up to 3,500 lb. (1,587 kg) of IT equipment installed.
- The cabinet is rated to 3,500 lb. (1,587 kg) dynamic (rolling) and shipping and 4,250 lb. (1,927 kg) static (levelling) feet.
- The solution has been tested to industry standard International Safe Transit AssociationTM 3E transportation and shipping testing.

**Strengthening the base building block of EcoStruxure**

- The NetShelter SX3K has been designed to seamlessly integrate into Schneider Electric’s EcoStruxure modular, scalable, data center infrastructure.
- Available in 42U and 48U heights and compatible with hundreds of APC accessories.

**Features**

- **Hassle-free installation, integration, configuration** – Easy-to-remove/reassemble shock packaging
- **Added load support** – Robust equipment fastening system, vertical/horizontal stiffeners, and heavy-duty EIA (electronics industry alliance) equipment mounting rails
- **Smooth maneuverability** – Durable, heavy-duty casters
- **Complete rack stability** – Cabinet elevation/pallet brackets
- **Simplified cabinet removal** – Metal reusable ramp (sold separately), built-in rails, and fixed rear casters
- **Outer protection** – Complete outer wrap and protective inserts
- **Shock pallet** – Impact- and vibration-resistance during integration/transport

Server and networking applications
As the number of IT components within each rack enclosure continues to increase, so do the number of power and data cables. APC offers a large selection of vertical and horizontal cable managers to address today’s cable routing demands. From toolless-install ring-style managers for server applications, to high-density finger-type managers for supporting patching and switches, APC is a leader in innovative, application-driven solutions. Our unique overhead cable management system turns the top of the enclosure into a cable tray, eliminating the need to use space under a raised floor and permitting better organization in nonraised floor environments.

APC has a strong history supporting the server applications in data centers around the world. The innovative, toolless, snap-in accessories have become the benchmark for server cable management.

High-capacity cable managers can be used to support fiber and copper cable bundles
1 AR7580A — High-capacity vertical cable manager for NetShelter SX 30 in. wide enclosures (AR3x5x), supports 190 to 250 CAT 6A/CAT 6 data cables per section and 190 CAT 6A per channel section. Each kit covers one corner of the enclosure.
2 AR7581A — Hinged covers for AR7580A vertical cable managers.
3 Fiber slack spools for mounting to the vertical mounting rails of NetShelter SX 30 in. wide enclosures (AR3x5x).

Additional high-capacity vertical cable managers and covers available for specific enclosure heights, 42, 45, and 48U. Visit the website for a complete listing.

Check out “Cable Management for Enclosure and Rack Systems” for a comprehensive list of cable management options.
NetShelter SX Cable Management

Overhead cable troughs and partitions

- NetShelter enclosures feature the ability to integrate a system of troughs and partitions for routing power and data cable across the top of the enclosures.
- Troughs and partitions reduce the need for expensive suspended cable tray systems.
- Troughs and partitions install toollessly with snap-in tabs and have standard attachment points for cable ladder systems.
- Enclosure troughs are shown here; for information on power and cooling troughs and partitions, see the APC website.

Power cable trough
- Supports power distribution cables
- Provides separation from data cables
- Data cables pass through underneath to front partitioned area
- AR8561 — Cable trough, 24 in. (600 mm) enclosures
- AR8571 — Cable trough, 30 in. (750 mm) enclosures

Pass-through data cable partition
- Partitions the top of the enclosure into cable routing areas
- Pass-through hole provides cable access into multiple cable areas
- AR8163ABLKL — Pass-through data partition, 24 in. (600 mm) enclosures
- AR8173BLK — Pass-through data partition, 30 in. (750 mm) enclosures

Solid data cable partition
- Partitions the top of the enclosure into cable routing areas
- Solid face provides clean appearance at the front of the enclosure
- AR8162ABLKL — Solid data partition, 24 in. (600 mm) enclosures
- AR8172BLK — Solid data partition, 30 in. (750 mm) enclosures

NetShelter SX Rack Components

Replacement doors, side panels, roofs
Standard doors, side panels, and roofs are available for all enclosure sizes. Check the enclosure product page options tab for a list of these rack components.

Specialty roofs, side panels, and accessories
- **AR7252** — Networking roof for high-density cabling 30 in. (750mm) wide x 42 in. (1070 mm) deep
- **AR7716** — Networking roof for high-density cabling 30 in. (750mm) wide x 42 in. (1070 mm) deep
- **AR7215** — NetShelter AV enclosure top mount conduit access adapter
- **AR7209** — Open roof support bridge for overhead troughs and partitions
- **AR7305A** — NetShelter SX pass-through side panel 42U x 42 in. (1070 mm) deep
- **AR7313** — NetShelter SX pass-through side panel 42U x 47.5 in. (1200 mm) deep
- **AR7315** — NetShelter SX pass-through side panel 45U x 42 in. (1070 mm) deep
- **AR7316** — NetShelter SX pass-through side panel 45U x 47.5 in. (1200 mm) deep
- **AR7375** — NetShelter SX pass-through side panel 48U x 42 in. (1070 mm) deep
- **AR7314** — NetShelter SX pass-through side panel 48U x 47.5 in. (1200 mm) deep
- **AR7714** — Replacement snap-in brush strips for SX roofs
- **ACF501** — Roof fan for 24 in. (600 mm) wide x 42 in. (1070 mm) deep enclosures, 120 Vac
- **ACF502** — Roof fan for 24 in. (600 mm) wide x 42 in. (1070 mm) deep enclosures, 208 – 230 Vac
- **ACF503** — Roof fan for 30 in. (750 mm) wide x 42 in. (1070 mm) deep enclosures, 120 Vac
- **ACF504** — Roof fan for 30 in. (750 mm) wide x 42 in. (1070 mm) deep enclosures, 208 – 230 Vac
- **ACF505** — Roof fan for NetShelter AV 24 in. (600 mm) wide x 32.5 in. (825 mm) deep, 115 Vac
- **AR8132A** — Combination lock handle for NetShelter SX enclosures, qty. 2
*For white version add W to part number

Rails

Mounting rails
Vertical EIA rail mounting kits for different widths and depths.
- **AR7510** — 23 in. (584 mm) EIA mounting rails for 42U x 30 in. (750 mm) wide enclosures

Recessed rail kits
Intermediate mounting rails for supporting shallow depth equipment.
- **AR7503** — 42U x 24 in. (600 mm) wide
- **AR7504** — 48U x 24 in. (600 mm) wide
- **AR7508** — 42U x 30 in. (750 mm) wide
- **AR7578** — 48U x 30 in. (750 mm) wide

Accessories are now available for pre-integration in NetShelter Racks and Enclosures. For more details see page 33.

Pre-integrate now
NetShelter SV Enclosures

Essential features for faster installation
NetShelter enclosures offer the most standard features to facilitate installation and speed of deployment.

1. Cable access through roof and rack bottom
   - Large openings for cables to pass through. Four brushes are preinstalled on 31.5 in (800mm) wide versions.
   - Front opening includes removable panel. The rear is always open but can be covered with brush strips (AR7714).

2. Adjustable vertical mounting rails with vertical 1U patching (31.5 in. (800 mm) only)
   - Front and rear equipment mounting rails are fully adjustable.
   - Adjust in 0.4 in. (10 mm) increments.
   - 31.5 in. (800 mm) wide versions allow for devices to be vertically mounted between the rail and side panel.

3. Lockable doors and side panels
   - Flat front door provides 69% ventilation.
   - Front door is reversible.
   - Split rear doors allow for clearance.

Integrated rear accessory mounting brackets for easy integration of rack PDU and cable managers
   - Accessory mounting brackets are included with the enclosure for mounting a variety of rack PDUs and cable management accessories.
   - Brackets provide cable tie-off points and mounting locations for toolessly mounting rack PDUs and cable managers.
   - Up to four additional sets can be purchased (AR824002 brackets-qty. 2) to provide additional mounting locations in the rear of the enclosure.

NetShelter CX Enclosures

Soundproofed “server room in a box,” that allows for IT deployment wherever and whenever it is needed

Conveniently deploy servers and networking equipment in a quiet, ventilated, secure, and office-ready cabinet. The NetShelter CX is a cost-effective alternative for when there is no space, budget, or time for a traditional server room or wiring closet.

Standard features

**Noise reduction:** 18.5 dB broadband noise reduction

**Cooling system:** Ultra-low-noise exhaust fan module

**Composite wood structure** with acoustic foam lining keeps hardware quiet and secure

**Zero-U Rack PDU:** Each unit includes an APC Basic Rack PDU preinstalled

**Cable management:** Vertical 0U accessory channels located at side at the front, middle, and rear. Cable egress located top/bottom for entry/exit

**Mobility:** Four heavy-duty casters, front wheels 360 degree rotation, rear fixed for stability

**Rear and side access:** Rear and side panels open for equipment installation and maintenance

**Door locking:** Key operated lock, options for combo-style or NetBotz electronic lock

*AR4000MVA requires use of rail kit AR4000MV12U for u-mounting space
NetShelter CX

NetShelter CX with shock packaging
The cabinet is paired with a shock absorbing pallet, unloading ramp and impact resistant shell. The system has been engineered, tested, and approved for secure shipment of fully converged systems such as those certified with Cisco for pre-racking and shipping Cisco Unified Computing System (UCS).

NetShelter CX Mini
The CX “Mini” is a purpose-built tower server enclosure aimed at small, non-IT spaces such as home office, school, AV, small office, and remote office environments.

NetShelter CX accessories — Mini
- AR4000MV12U — 12U vertical mounting rail kit for NetShelter CX Mini. Converts basic enclosure to a 12U rack enclosure.
- AR4000MV-FR — Fixed rail kit for NetShelter CX Mini provides two horizontal mounting ledges for equipment placement. Must be used with AR4000MV12U vertical mounting rail kit.
- AR4604 — Bolt-down kit - brackets to secure enclosure to the floor.
- AR4701 — Dust filter pack.
- AR4605 — NEMA input cord and 3 x IEC to NEMA adapter cords.

NetShelter CX accessories — 18U, 24U, 38U
- AR4604 — Bolt-down kit - brackets to secure enclosure to the floor.
- AR4602A — Allows use of NetShelter SX handles including combination lock handles (AR8132A) and NetBotz Rack Access PX-HID (AP9361).
- AR4701 — Dust filter pack for 18U and 24U. Increases the Ingress Protection Rating (IP) from IP44 to IP54 and reduces the risk of dust-related equipment issues.
- AR4702 — Dust filter pack for 38U. Includes filters for bottom and top of enclosure air intake holes.
- AR4703 — Fan booster increases the CX thermal capacity by up to 40%.
- AR4603 — Base/Plinth surround kit attaches to base of CX and hides casters and support feet.

Available as a complete Micro Data Center with integrated power.

Take the NetShelter CX Tour.
NetShelter Wall-mount Enclosures

The NetShelter WX wall-mount server rack and network rack solutions provide the functionality required in edge computing applications to be deployed in remote locations with confidence and peace of mind.

NetShelter 6U Low-Profile Wall-mount Enclosures and Micro Data Centers

APC Wall Mount Micro Data Center is an innovative new way to deploy server and networking equipment at the Edge. The unique low-profile design enables large depth devices to be wall mounted in a compact, and less intrusive form factor than traditional wall mount cabinets.

Available as a complete Micro Data Center with integrated power.

Discover more

Micro Data Center design highlights

1. NetBotz HD Security Camera (optional)
2. Universal Accessory Bracket (for non rack-mounted equipment)
3. NetBotz Intrusion Detection (optional) — on front, rear and side panel
4. 1U or 2U UPS (1kVA Lithium pictured)
5. NetBotz Temperature/Humidity Sensor (optional)
6. 2.75 in./1 in. (70mm/28mm) Cable Entry Knockouts (2) Brush Strip Panels (top and bottom)
7. Easy, detachable mount wall bracket
8. Integrated fan ventilation

Enclosure features

- Compact, low-profile design
- Supports latest generation edge server and networking equipment up to 30 in. (762 mm)
- High weight load capacity – up to 250 lb. (113 kg)
- Integrated fans/dust filter
- Wall-mount or floor casters (optional)

NetShelter Wall-mount Enclosures

Single-hinged Enclosures
The cabinets are compatible with a wide range of APC UPSs, PDUs, and with NetBotz; simply replace the standard swing handle with the NetBotz Rack Access swing handle. NetBotz provides the functionality required at the Edge including remote access, video capture, environmental monitoring with optional smoke, and fluid detection.

All cabinets are UL2416 listed and ship fully assembled. All WX cabinets have a static weight capacity of 91 kg (200 lbs.) making it ideal for roll outs for retail, medical and education. The 600mm deep (23.6 in.) cabinet also provides versatility to mount deep equipment at the point of compute in Edge applications.

Unassembled wall-mount Enclosures
Unassembled enclosures must be assembled on site and offer benefits from a storage and transportation standpoint.
- **AR106** — 6U x 24 in. (600mm) wide x 16 in. (406mm) deep enclosure with perforated door
- **AR109** — 9U x 24 in. (600mm) wide x 16 in. (406mm) deep enclosure with perforated door
- **AR112** — 12U x 24 in. (600mm) wide x 24 in. (600mm) deep enclosure with perforated door
- **AR8213** — Roof fan tray 120V as an accessory for the AR106, AR109, AR112

Rear-hinged wall-mount Enclosures
Support remote patching and networking applications in a convenient wall-mount rack with an easy-install rear-hinged section and reversible doors.
- **AR100** — 13U x 23 in. (584mm) wide x 25 in. (635mm) deep, wall-mount enclosure with vented sides and glass front door
- **AR100HD** — 13U x 23 in. (584mm) wide x 25 in. (635mm) deep, wall-mount enclosure with vented sides and full vented front door
- **AR8206ABLK** — Roof fan tray 120V
- **AR8207BLK** — Roof fan tray 208V/230V
- **AR8359** — Caster kit
- **AR8355** — Ventilation plates
Open Frame Racks

**NetShelter two- and four-post open frame racks**
The NetShelter two- and four-post open frame racks offer a quality solution for the economical installation of rack-mountable equipment, where security at the individual rack level is not required. Open frame racks provide unobstructed airflow and fast, easy access to installed equipment, and can be paired with high-density vertical cable managers for maximum cable volume. The two-post rack offers cost-conscious customers a simple solution for supporting networking equipment and patching applications. The four-post rack offers more strength and features for supporting servers and networking equipment. Recent improvements to the four-post racks increase cable management options and flexibility.

**Performance vertical cable managers AR8625 and AR8765 shown**

**Performance vertical cable managers**
- Preassembled, ready for installation
- Fits two- and four-post open frame racks 84 in. (2133 mm) height
- Slam-to-latch full length door opens to left or right
- Cable management backplate or midspan bracket for toollessly mounting cable management accessories and rack PDUs

| AR8615 | 6 in. (152 mm) wide, single-sided |
| AR8625 | 6 in. (152 mm) wide, double-sided |
| AR8635 | 10 in. (254 mm) wide, single-sided |
| AR8645 | 10 in. (254 mm) wide, double-sided |
| AR8665 | 12 in. (304 mm) wide, single-sided |
| AR8675 | 12 in. (304 mm) wide, double-sided |

**AR201 — two-post rack**
- Self-squaring design
- 45U mounting spaces - 84 in. (2133 mm) tall
- Black finish
- 6061-T6 structural grade aluminum
- Weight capacity (static load) 750 lb. (340 kg)

**AR203A/AR204A — four-post rack**
- Threaded #12-24 holes (AR204A)
- Square holes for cage nuts and server mounts (AR203A)
- New design for easier assembly
- Steel construction
- 44U mounting spaces - 84 in. (2133 mm) tall
- Black finish
- Multiple toolless mounting points for hook-and-loop fasteners (AR8621) or toolless cable management rings (AR7540)
- Multiposition rack PDU mounting bracket (AR8652)
- Reversible stabilization plates
- Grounding inserts
- Weight capacity (static load) 2,000 lb. (907 kg)

**VDIM33174 — 4U overhead patch frame**
- 19 in. (482 mm) frame
- Weight capacity up to 33 lb. (14 kg)
- Attaches to cable ladder and wire basket trays for network patching overhead row

**Vertical cable managers**
- Unassembled option for site assembly
- Fits two- and four-post open frame racks
- Cable management backplate for toollessly mounting cable management accessories

| AR8715 | 6 in. (152 mm) wide, 84 in. (2133 mm) height, single-sided |
| AR8725 | 6 in. (152 mm) wide, 84 in. (2133 mm) height, double-sided |
| AR8728 | 6 in. (152 mm) wide, 96 in. (2438 mm) height, single-sided |
| AR8765 | 12 in. (304 mm) wide, 84 in. (2133 mm) height, single-sided |
| AR8768 | 12 in. (304 mm) wide, 96 in. (2438 mm) height, single-sided |
| AR8775 | 12 in. (304 mm) wide, 84 in. (2133 mm) height, double-sided |
Open Frame Racks

Performance vertical cable manager: Accessories and applications

1. **AR8444 — Cable slack spools**
   - Toollessly mounts on back panel
   - Provides smooth radius support for cable slack

2. **AR8621 — Toolless hook-and-loop cable managers**
   - 18 in. (457mm) straps for large data cable bundles
   - Various mounting positions on back panel of vertical cable managers

3. **AR8680 — Cable divider/organizer**
   - For creating multiple cable pathways within vertical cable managers
   - Includes tie-off features for securing cabling using toolless hook-and-loop cable managers (AR8621)

4. **Vertical rack PDUs and patching**
   - Cable management backplate (single-sided) or midspan brackets (double-sided) allow:
     - Toollessly mount, front or rear, multiple vertical rack PDUs
     - 19 in. (482mm) patch panels can be installed vertically (double-sided only)

Four-post rack accessories

- **AR8652 — Rack PDU mounting bracket**
  - Mounts on sides as a spacer when using vertical cable managers between two racks
  - Mounts on face of vertical rails, perpendicular, for single rack applications
  - Designed to toollessly mount APC rack PDUs

- **AR8450A — Trough and partition adapter**
  - Provides mounting locations for overhead trough and partition cable management system

APC by Schneider Electric
NetShelter Custom and Specialty Enclosures

NetShelter custom racks and enclosures
Assembled and configured-to-order or completely customized rack systems.
Offering customization services to our data center customers with cabinets and rack power
distribution products. Your customer’s needs, our engineering expertise. Dedicated engineering team
to define needs, set expectations, build prototypes, co-engineer, and execute a customized solution.

NetShelter Custom and Specialty Enclosures

NetShelter Assemble-to-Order

The Cabinet ATO (Assemble-to-Order) provides a level of customization for cabinet customers beyond the standard cabinet SKUs. For example, the cabinet can be assembled without sides, doors, or a roof. In addition, special mounting rails can be installed in place of the standard square hole rails for customers requiring threaded options or 23 in. (584 mm) EIA mounting. To request an ATO cabinet configuration contact an APC sales representative.

Alternate roof designs:
- Server or networking
- Fan tray
- Open roof bridge
- No roof

Alternate side panels:
- Pass-through brushes
- Sides only where needed
- No sides

Cabinet colors:
- Black
- White

Packaging:
- Standard
- For equipment shipment up to 2,000 lb. (907 kg)

Common ATO configurations

For common requests, such as cabinets without sides or without sides and doors, generic part numbers have been set up to provide faster assistance.

View the chart on page 7 for enclosures available as ATO configurations without sides or without sides and doors.

NetShelter seismic enclosure

Enclosure designed for essential facilities and carrier applications in seismic environments. Meets NEBS test standard GR-63-CORE Zone 4 at 1,000 lb. (453kg) equipment load.

- **AR2144BLK** — 42U x 24 in. (600mm) wide x 42 in. (1070mm) deep, NEBS enclosure, with sides
- **AR2145BLK** — 42U x 24 in. (600mm) wide x 42 in. (1070mm) deep, NEBS enclosure, without sides
Rack Cooling and Airflow Management

NetShelter Data Center Containment

NetShelter Data Center Containment can be deployed at the rack, row, or room level. In addition to maximizing network availability and performance, the solutions provide a significant OpEx savings by minimizing the power consumption of the cooling equipment.

NetShelter Pod Containment

Rack-ready system designed to deploy IT at scale in increments of 8-to-12 racks. The backbone of the solution is a freestanding structure that supports necessary IT infrastructure while providing air containment for all rack types. It is designed to easily integrate with a variety of cooling and power configurations.

NetShelter Aisle Containment

The NetShelter Aisle Containment system adapts to varying rack heights, aisle widths, and rack depths to support either hot or cold aisle containment. The Air Return System of the NetShelter Aisle Containment provides a centralized hot air return path for room-based computer room air conditioner units or external air handling systems.

NetShelter Rack Containment

The NetShelter Rack Containment modular design easily adapts to both the front and rear of the racks and close-coupling cooling units, simplifying installation. The NetShelter Rack Containment features a scalable open plenum that enables capacity sharing to improve cooling system redundancy and utilization.

Available as a complete Data Center Solution with integrated power, rack, and cooling.

Discover more
Passive Cooling Accessories

Air sealing
Covers open rack space to prevent air recirculation and reduce bypass airflow to improve cooling efficiency.

- AR8136BLK — 1U toolless snap-in blanking panel, 10 pk (AR8136WHT white version)
- AR8136BLK200 — 1U toolless snap-in blanking panel, 200 pk (AR8136WHT200 white version)
- AR8108BLK — 1U standard metal blanking panel, 2 pk
- AR8101BLK — 1U, 2U, 4U, 8U, blanking panel kit
- AR7708 — NetShelter SX Air Recirculation Prevention Kit for closing gaps and pass-through holes between side panels and equipment mounting rails
- AR7731 — NetShelter SX external air sealing kit seals external openings at roof and floor, 10 pk

KoldLok® raised floor grommets
Seal a variety of cutouts in a raised floor environment to reduce cold air leakage and improve cooling efficiency under the raised floor.

- AR7720 — Integral raised floor grommet (enclosed) for new installation, 10 pk
- AR7730 — Surface-mount raised floor grommet (split) for existing cables, 10 pk
- AR7740 — Extended raised floor grommet to cover length of floor tile, 10 pk

Side airflow cooling
Support cooling for small and large networking switches mounted within networking enclosures.

- AR7742 (42U)/AR7747 (48U) — Side airflow solution for Cisco Nexus 7018 attaches to sides of 47.5 in. deep enclosures. For more detail see page 8.

Ducting only
Vertical Exhaust Duct (VED) for NetShelter SX is an easy-to-install, low-cost cooling option that can increase the efficiency of the attached cooling system.

- AR7751 — VED for 24 in. enclosures, short range
- AR7752 — VED for 24 in. enclosures, tall range
- AR7753 — VED for 30 in. enclosures, short range
- AR7754 — VED for 30 in. enclosures, tall range
- AR7755 — Overhead cable extension for VED 24 in.
- AR7756 — Overhead cable extension for VED 30 in.

VEDs also available in white.
Roof fan trays available for 42 in. deep enclosures, See “Rack components” on page 12.

Active cooling accessories

Rack mounted cooling
Rack mounted cooling solution to meet the specific needs of Micro Data Center and Edge computing solutions.

- ACRMD4KT-1 — 3.5kW split system indoor unit, gravity drain
- ACRMD4KT-2 — 3.5kW split system outdoor unit, pre-charged refrigerant

Rack fan panel
2U rack-mounted fan panel and accessories.

- ACF600 — 2U rack fan panel
- ACF601 — Rack fan panel temperature controller
- ACAC40000 — 2U vent panel with temperature display
- ACAC40001 — 2U vent panel
Rack Power Distribution

Global power densities are increasing and becoming more unpredictable. Whether deploying rack power distribution in a wiring closet, server room, or data center, APC offers a consistent way to meet a variety of power density applications up to 22 kW per strip.

APC Rack PDUs have sufficient power and receptacle outputs to meet high kW loads in a minimal amount of space. Their ease of installation accelerates speed of deployment and reduces installation costs. With advanced rack power distribution, APC offers real-time remote load monitoring of connected equipment and individual outlet power control for remote power recycling.

Manage power at the rack level with pinpoint control
• Basic Rack PDU — Entry-level power distribution for rack-mount equipment
• Metered Rack PDU — Advanced power distribution provides real-time remote monitoring of connected loads
• Switched Rack PDU — Premium power distribution allows remote control of individual outlets and monitoring of aggregate current consumption
• Metered-by-Outlet — Provides real-time remote monitoring of each individual outlet
• Rack Automatic Transfer Switch — Provides redundant power to single-corded equipment

The Metered and Switched Rack PDU offers advanced features to meet today’s data center demands
Monitors input and all breakers on the strip (local and remote) and offers user-customizable warning and overload settings, plus automated alarm notifications. Enables enhanced capacity management and network management.
• Web interface
• Telnet, SNMP
• Security
• Schneider Electric EcoStruxure IT Expert

Rack PDU local display
Load indicator LEDs
Serial connection: local configuration and out-of-band management
User interactive display for local access
Environmental monitoring port for external temperature/humidity probe

Local two-digit LED current monitoring display
Network management: access, configure, and receive warnings from remote locations via Web, SNMP, and Telnet
CAN In/Out ports for future functionality
Local USB port for flashing firmware updates and downloading data/event logs (not to be used as serial port)

Color user-interactive display for local access
Color user-interactive display for local access
Rack Power Distribution

Factory-Configurable: Pick and choose outlets, color, and more

New architecture takes APC from a standard catalog of hundreds of products to thousands of configurable options. Factory options include outlets, input cord type and length, and color.

Request a design today through your APC sales representative.

Overview
• **Factory-configurable family types**: Metered by Outlet, Switched, and Switched with Metering by Outlet
• **Voltage**: 200 — 415V
• **Amp**: 20 — 60A
• **Outlet capacity**: Up to 48 outlets — C13s, C19s
• **Mount style**: Vertical

To configure your PDU today visit: apc.com/configurerackpdu

Accessories are now available for pre-integration in NetShelter Racks and Enclosures. For more details see page 33.
NetBotz Security and Monitoring

Security and environmental monitoring for network closets to data centers

Surveillance
- Leverage NetBotz and IP camera technology to monitor IT assets remotely
- EcoStruxure IT Expert and the NetBotz Surveillance package allow multiple site camera views on a single page

Environmental monitoring
- Wide range of wired and wireless sensor support to monitor the health of your IT assets
- Temperature, humidity, leak, door, smoke, vibration, dew point, airflow, dry contact, 4-20mA, and 0-5V

Management capabilities
- Alarming allows alerts, multiple notification methods, scheduling, graph and video attachments, escalation.
- Integrate with EcoStruxure IT Expert to manage multiple NetBotz devices through a single interface and view historical alarms and sensor data.

Flexible access control for NetShelter SX, SV, CX, and wall-mount racks

- Configure proximity cards for access or control access via web browser for remote management and notification.

APC Rack Access control options:

125 kHz Access Control
- Stand-alone appliance for two handles to plug into (i.e., one appliance per rack)
- Leverages the Netbotz 250
- Central authentication via RADIUS
- Remote Syslog capability

13.56 MHz Access Control
- Stand-alone appliance for two handles to plug into (i.e. one appliance per rack)
- Leverages the Netbotz 250
- Central authentication via RADIUS
- Remote Syslog capability

Rack Access Pods
- Rack access pod that is daisy chained off a Netbotz 750 or 755 appliance
- Basement or 19 in. mounting
- Supports NetShelter SX, SV, and CX*
- Supports up to 200 unique users

*Note: NetBotz Access Control requires adapter kit for NetShelter CX

Accessories are now available for pre-integration in NetShelter Racks and Enclosures. For more details see page 33.

Pre-integrate now
**LCD Monitors and KVM Switches**

Optimize rack space.
Maximize system visibility.

Rack LCD Consoles include a keyboard, mouse, 17 in./19 in. LCD console, and optional integrated 8/16 port analog KVM switch (17 in. model only), all in a compact 1U design. This compact design allows a KVM switch to be mounted in the rear of the Rack LCD Console or eliminates the need for a separate KVM switch altogether by choosing a Rack LCD Console with integrated 8/16 port analog KVM switch.

The console is easily installed and minimizes support and maintenance costs, ensuring lower cost of ownership. The ultra-thin LCD screen, touch pad technology, and easy-to-install single user rack-mount kit combine to form a high-quality, streamlined solution built for server management. The Rack LCD Consoles can be used in a variety of IT environments, from computer rooms to large data centers.

- Ultra-thin 17 in. or 19 in. LCD monitor
- Integrated keyboard with number pad
- USB port for external media
- Space-saving 1U design
- Touch pad mouse
- Easy to install

Access your servers across the room or across the world. APC Rack KVM switches empower IT administrators through both local and remote POST- and BIOS-level access and control of connected servers. APC Analog, CAT-5 Analog, and IP KVM switches help reduce total cost of ownership — minimizing space, hardware, electricity, and cabling by leveraging just one keyboard, monitor, and mouse for multiple servers.

NetShelter Cable Management

Toolless accessories

Vertical cable management
APC specializes in toolless-install accessories by the use of the zero-U channels located in the rear of every NetShelter SX enclosure.

1 Vertical 0U accessory for NetShelter SX
   - Allows toolless mounting of vertical rack PDUs
   - Toollessly mount vertical cable organizers
   - Additional vertical 0U accessory channels:
     - AR7502: Vertical 0U accessory channel, 42U, qty. 2
     - AR7552: Vertical 0U accessory channel, 45U, qty. 2
     - AR7572: Vertical 0U accessory channel, 48U, qty. 2
     - AR7511: Narrow vertical 0U accessory channel, 42U
     - AR7505: Vertical cable organizer, center rear mount

2 AR8442 — Vertical cable organizer, eight cable rings, zero U
   - Supports 35 to 55 CAT 6/CAT 6A data cables
   - Mounts toollessly on the vertical 0U accessory channel

3 AR8443A — Vertical fiber organizer
   - Installs toollessly
   - Takes up one bay of channel
   - Fiber spool only kit available (AR8444)

4 AR8457 — Data distribution 0U SX panel
   - Installs toollessly
   - Takes up one bay of channel
   - Toollessly mount up to four DDC cable heads, 24 ports for rack-to-rack connections

5 AR7710 — Cable containment brackets with rack PDU mounting
   - Low-profile vertical cable management
   - Supports 60 to 90 CAT 6/CAT 6A data cables
   - Mounts toollessly on the vertical 0U accessory channel

6 AR7711 — Zero-U accessory bracket
   - Mounts rack PDUs in rear-facing orientation
   - Supports third-party accessories in numerous mounting configurations
   - Mounts 1U or 2U patch panels or other networking accessories

7 AR8621 — Hook-and-loop cable managers, qty. 10
   - Mount toollessly on the vertical 0U accessory channel
   - Secure and bundle cables with hook-and-loop ties

8 AR7721, 22, 23 — Low-profile vertical cable managers, zero U
   - Supports up to 38 CAT 6A or 251 fiber cables
   - Mounts toollessly on the vertical 0U accessory channel
NetShelter Cable Management

Horizontal cable managers

Finger-type horizontal cable managers
Cable managers for patching and crossover applications featuring smooth radius plastic fingers that protect the cable from kinking and binding. Hinged, snap-on covers provide a clean look and retain large cable bundles. These cable managers include hardware for double-sided configurations with two units.

- **AR8602A** — 1U horizontal cable manager with 4 in. (101 mm) fingers and snap-on cover
- **AR8600A** — 2U horizontal cable manager with 4 in. (101 mm) fingers and snap-on cover
- **AR8612** — 1U horizontal cable manager with 6 in. (152 mm) fingers and snap-on cover
- **AR8606** — 2U horizontal cable manager with 6 in. (152 mm) fingers and snap-on cover
- **AR8603A** — 2U horizontal cable manager with 6 in. (152 mm) fingers, snap-on cover, rear cable pass-through holes, and slots for AR8008BLK/AR8016ABLK horizontal cable channel
- **AR8605** — 3U horizontal cable manager with 6 in. (152 mm) fingers, snap-on cover, rear cable pass-through holes, and cable channel slots

Ring-type horizontal cable managers
Economical cable managers for patching applications featuring various configurations to meet specific needs.

- **AR8425A** — 1U horizontal cable manager with four rings
- **AR8426A** — 2U horizontal cable manager with four rings
- **AR8428** — 2U horizontal cable manager with four rings and pass-through holes
- **AR8427A** — 2U horizontal cable manager with multiple rings and small cable retainers
- **AR8113A** — Cable management rings, qty. 5 large, 5 small
- **AR7707** — Cable management rings, 8 in. (203 mm) deep for 30 in. (750 mm) wide enclosures (AR3x5x), qty. 8

Horizontal cable management accessories

- **AR8429** — 1U cable pass-through manager with brush strip
- **AR8129** — Cable management arm for use with sliding shelves
- **AR8008BLK** — Horizontal cable side channel (18 in. [457 mm] to 30 in. [750 mm] adjustment) for routing cable front-to-back between the standard wide rack mounting rails or AR8603 and AR8428 horizontal cable managers
- **AR8016ABLK** — Horizontal cable side channel (10 in. [254 mm] to 18 in. [457 mm] adjustment) for routing cable front-to-back between the standard wide rack mounting rails or AR8603 and AR8428 horizontal cable managers
- **AR7706** — Mounting rail brush strips for 30 in. (750 mm) wide enclosures (AR3x5x), qty. 6

Accessories are now available for pre-integration in NetShelter Racks and Enclosures. For more details see page 33.

Pre-integrate now ➤
Shelves and Mounting Hardware

Mounting accessories to aid in the installation of IT equipment and secure racks into position

**Shelving**
Fixed and sliding shelves to enable the mounting of tower units, monitors, and other equipment into the rack environment.
* AR8105BLK — Fixed shelf 50 lb. (22 kg)
* AR8122BLK — Fixed shelf 250 lb. (113 kg)
* AR8123BLK — Sliding shelf 100 lb. (45 kg)
* AR8128BLK — Sliding shelf 200 lb. (90 kg)
* AR8422 — Double-side fixed shelf for two-post rack
* AR8126ABLKLK — 17 in. (431 mm) sliding keyboard shelf
* AR8127BLK — 19 in. (482 mm) sliding rotating keyboard shelf
* AR8006A — Miscellaneous equipment support rails for 24 in. (600 mm) wide enclosure

**Bolt-down and stabilization**
Stabilization plates and hardware to prevent tip over in stand-alone rack applications and meet specific anchoring requirements.
* AR7700 — NetShelter SX stabilization plate to prevent tipping when sliding out equipment
* AR7701 — NetShelter SX bolt-down kit — meets IBC seismic requirements for moderate seismic zones
* AR7701-S — NetShelter SX bolt-down kit — meets IBC seismic requirements for high seismic zones

**Miscellaneous mounting brackets**
Variety of mounting brackets for mounting IT equipment.
* AR7711 — Zero-U multipurpose accessory mounting bracket for side mounting of 1U/2U products and rack PDUs
* AR8150BLK — 23 in. (584 mm) to 19 in. (482 mm) mounting adapter brackets for use with AR7510 23 in. (584 mm) EIA mounting rails

**Hardware kits**
Available for additional hardware needs or to accommodate equipment mounted in varying mounting options.
* AR8100 — M6 cage nuts and screws, qty. 32
* AR8400 — #12-24 screws, qty. 100
* AR8005 — #10-32 cage nuts, qty. 36
NetShelter Enclosures with Shock Packaging & Shock Pallet

Rack & Stack made easy for equipment integrators

Secure shipping, fast deployment, and enhanced integrated solutions with APC by Schneider Electric enclosures with shock packaging and shock pallet. These solutions offer:

- Lower physical layer engineering and production costs
- Faster integration time of overall IT solution
- Reduction in physical layer floor space requirements during rack & stack
- Reduction in packaging and recycling of physical layer materials
- Certifications and reference designs with top IT manufacturers

Includes:

- Shock pallet
- Cardboard outer wrap and foam
- Plastic covering to keep dust debris out
- Ramp
- Cabinets include heavy duty casters, fixed and swivel for maneuverability

How does it work?

Remove packaging → Integrate & configure → Replace packaging → Ship to site → Place & plug

Secure shipping and fast deployment with Cisco + APC by Schneider Electric

Today’s converged and hyperconverged infrastructures and off-premises data centers require fully populated IT cabinets to be more securely shipped to customer or colocation sites for fast, low-risk deployment. The loss of or damage to even a single rack can run up to a million dollars or more.

APC by Schneider Electric delivers a Cisco-validated shipping solution that simplifies Cisco UCS “rack and stack” and protects IT equipment to lower costs, reduce risk, and provide speed and flexibility for deployment.

Pre-integrate Your Rack Configurations

Now you can pre-integrate your rack in local Schneider Electric factories by using Local Edge Configurator for a speedy and hassle free deployment.

Pre-integrated racks are assemble-to-order configurations for a speedy and hassle free deployment. They save time, money, and space for end users and system integrators receiving, deploying, and installing products and keep them focused on the IT rather than physical infrastructure.

Your selected rack and other equipment are assembled in one package before shipping from a Schneider Electric factory and are ready to use in your premises. These are ideal solutions for edge and IoT applications where deployment speed, reliability, and security is paramount.

Users can choose to pre-integrate any rack which has at least one piece of equipment in it to pre-integrate.

Pre-integration is limited to Schneider Electric products only and accomplished using Schneider Electric Design Portal Local Edge Configurator accessible by APC sales representatives and partners.

Three steps to pre-integrate
1) Find and add rack and other required equipment into a Local Edge Configurator design.
2) In rack view, drag and drop equipment into the rack.
3) Select “Pre-integrate” from the additional features widget menu.
   • Click on rack to view additional features widget
   • Click pre-integration button

Products eligible for pre-integration
• NetShelter SX, CX, and 6U Low-Profile Wall-mount Enclosure
• NetShelter rack accessories
• NetShelter Rack PDUs
• Smart-UPS
• NetBotz
• Racks with or without shock pallets for IT integration

Hear from one of our customers on how rack pre-integration sped up their deployment and time to market.

Contact your APC sales representative or partner and ask them to integrate your next rack with Local Edge Configurator and NetShelter Racks and Enclosures and Accessories.

Common attributes for EcoStruxure Data Center solutions

Manageable
Schneider Electric has a range of management options to best meet your needs enabled by best-in-class management software and services.

Configurable
Pre-engineered system level designs supported by best-in-class design tools and primarily configured from standard components to increase reliability.

Fast
EcoStruxure Data Center solutions can be designed and deployed quickly leveraging our global supply chain to meet your delivery requirements.

Flexible
Designed with a modular approach that can be configured in a variety of form factors and sizes to adapt to a range of environments and applications.
