

Solutions for your Business

NetShelter CX

The NetShelter CX is a soundproofed server room in a box which allows for IT deployment wherever and whenever it is needed, saving space, cost and deployment time.

Whether it's a large multi-branch roll-out or a single small independent business, the NetShelter CX can provide a right-sized, space-saving, secure environment for the business-critical IT equipment that belongs onsite.

The NetShelter CX is available in 4 sizes: 38U, 24U, 18U and a Mini Version which is designed specifically around Tower Servers.

How the CX helps in Business Environments

- CX allows IT deployment even when there isn't a dedicated room or closet for IT equipment
- Preinstalled and tested solutions can be rolled into place and powered on in minutes
- All branches are not the same – CX comes in multiple sizes for small to medium IT deployments
- Attractive wood finish means IT gear won't look conspicuous in the business environment
- Redecorating or moving? CX keeps your IT gear mobile allowing ultimate flexibility. Just unplug and move.
- Big cost savings versus building a dedicated IT room – see a cost saving study at apc.com/netsheltercx
- Mobile & Secure – perfect for a small office setting
- Remote manageable by offsite IT staff when integrated with APC Smart-UPS and APC Network Management Card

Specific Applications:

Consolidation or Refresh Project

- Free up additional space by housing what is left from your server room in the open office instead
- Deploy new servers, storage and networking gear in the NetShelter CX
- Use NetShelter CX as a testing or development equipment environment

Building Restrictions

- Save deployment time with a mobile “plug and play” enclosure – great for office moves
- Save money by not renting or building a dedicated space for IT equipment

Leased Premises

- With NetShelter CX, there is no fighting with the building owner for closet space or building plans
- NetShelter CX is an investment that you can take with you when you move.
- Grow your IT space as you grow your business
