

Version:

=====

UPS 02.7

Applicable Models:

=====

CSH2, CSH2-I, CSH2-JP

Previous Released Version:

=====

UPS 02.5

Release Notes (UPS01.1):

=====

1. Add MCU flash protection

Release Notes (UPS 02.5):

=====

The issues addressed in this version of code:

1. Addressed and ensured that AC\_Present information is passed to HUB to display Battery charge plug ICON on HUB within 10 seconds.
2. Addressed the delay in updating the SoC% details on HUB to display within 6 seconds.
3. Incorporated a wait time of 5 minutes and for an SoC% of 2% to turn on 24V DC output when AC mains applied after a battery low shutdown.
4. Incorporated the modification of displaying SoC% only if unit 24V DC output is ON.
