

SpaceLogic Controllers – domestic preference compliant models

Schneider Electric proudly offers Buy American Act (BAA) compliant SpaceLogic Controllers

Federal policy changes and procurement requirements can be difficult to navigate. They often dictate varying levels of “domestic manufacturing” required for projects, especially for federal procurements. For projects that require controllers, we are proud to offer compliant products from a variety of SpaceLogic controller ranges to meet project needs.

This is yet another example of how Schneider Electric is committed to providing resilient, efficient, and sustainable solutions to help the Federal Government and its agencies.

Creating confidence with compliant products

When you need BAA compliant products for your project, Schneider Electric makes it easy.

You can be confident that our compliant models provide the same features, functionality, and benefits as the standard SpaceLogic controller models.

Plus, you’ll have peace of mind knowing that these BAA compliant controllers will help to ensure your project:

- Meets BAA requirements in project specifications
- Complies with requirements of government procurement

SpaceLogic compliant ranges

Our SpaceLogic line of BAA compliant controllers includes products from the following ranges:

- **SpaceLogic AS-P Automation Server** – Serves as a standalone server and can monitor and manage field bus devices.
- **SpaceLogic MP-C Controllers** - multipurpose controller suitable for a wide range of plantroom applications
- **SpaceLogic MP-V Controllers** – multipurpose room controller for VAV cooling and heating applications
- **SpaceLogic IP-IO Expansion Module** – enables I/O expansion to HVAC applications over BACnet/IP

These controllers utilize best-in-class automation technology that can help enable cybersecurity, energy, and sustainability directives, in addition to being BAA compliant products. And as always, Schneider Electric’s SpaceLogic devices are part of our Green Premium program, delivering sustainable performance, by design.
