Note: FC= fuse clip
CB= MCCB

- To obtain the complete catalogue no., select A letter or digit from each of the columns A through L.
- Example: LE1D098B62OG7112 is a full voltage, non-reversing starter with a fusible disconnect, 30A fuse clips in a type 1 enclosure, with no control transformer, a 120VAC coil

(1) Consult sales office for prices.
(2) Contactor only, reset button not included.

(1) Instakits™ design available in NEMA Type 1 and Type 12 enclosures only.

(2) Factory assembled:

a) Replace (●) with corresponding coil voltage code in the table below.

Voltage (volts)	24V	120V	208V	240V	480V	600V
Code	B7	G7	L7	M7	T7	X7

b) Replace (□) with corresponding O/L relay suffix number listed on page 1. (Price included in starter price.)

(3) Customer Assembled:

a) For coil voltage other than 120 volts, replace suffix letter G7 by corresponding letter on above coil voltage table.

b) Select exact O/L relay part number on page 24 / 25 and add price to starter price.

(4) To obtain a single phase non-reversing starter, change prefix LE1 to LES. (eg. LE1D093A62OG70 becomes LESD093A62OG70). Price remains unchanged. Not applicable to LE1F● devices.

How to Order:

Catalogue numbers pages 2 to 11
 Overload relays pages 24 to 25
 Factory Modifications pages 12 to 17
 Dimensions pages 18 to 21
 Wiring Diagrams pages 22 to 23

(1) Instakits™ design available in NEMA Type 1 and Type 12 enclosures only.

(2) Factory assembled:

a) Replace (●) with corresponding coil voltage code in the table below.

Voltage (volts)	24V	120V	208V	240V	480V	600V
Code	B7	G7	L7	P7	T7	X7

b) Replace (□) with corresponding O/L relay suffix number listed on page 1 (Price included in starter price.)

(3) Customer Assembled:

a) For coil voltage other than 120 volts, replace suffix letter G7 by corresponding letter on above coil voltage table.

b) Select exact O/L relay part number on page 24 / 25 and add price to starter price.

(4) For breaker, frame/trip different from the ones proposed on this page specify your requirement using the catalogue composition guide page 1.

(1) Instakits™ design available in NEMA Type 1 and Type 12 enclosures only.

(2) Factory assembled:

a) Replace (●) with corresponding coil voltage code in the table below.

Voltage (volts)	24V	120V	208V	240V	480V	600V
Code	B7	G7	L7	M7	T7	X7

b) Replace (□) with corresponding O/L relay suffix number listed on page 1 (Price included in starter price.)

(3) Customer Assembled:

a) For coil voltage other than 120 volts, replace suffix letter G7 by corresponding letter on above coil voltage table.

b) Select exact O/L relay part number on page 24 / 25 and add price to starter price.

(4) To obtain a single phase reversing starter, change prefix LE2 to LER. (eg. LE2D093A62OG70 becomes LERD093A62OG70).

a) For use on single phase application, connect a power cable between terminals T3 on O/L relay and L2 on contactor.

Voltage (volts)	24V	120V	208V	240V	480V	600V
Code	B7	G7	L7	M7	T7	X7

b) Replace (□) with corresponding O/L relay suffix number listed on page 1 (Price included in starter price.)

(3) Customer Assembled:

a) For coil voltage other than 120 volts, replace suffix letter G7 by corresponding letter on above coil voltage table.

b) Select exact O/L relay part number on pages 24 / 25 and add price to starter price.

(4) For breaker, frame/trip different from the ones proposed on this page specify your requirement using the catalogue composition guide page 1.

Insulated terminal blocks

For relays LR9-F5•57, F5•63, F5•67, F5•69, F57, F63, F67 and F69	Set of 2 blocks
	LA9-F103

(1) The time for which the coil of remote electrical reset device LA7-D03 can remain energised depends on its rest time: 1 s pulse with 9 s rest time; 5 s pulse duration with 30 s rest time; 10 s pulse duration with 90 s rest time; maximum pulse duration 20 s with rest time of 300 s. Minimum pulse time: 200 ms.

(2) Reference to be completed by adding the coil voltage code.

Schneider Electric

Our products provide quality solutions, meeting all your automation and control applications requirements.

A worldwide presence

- More than 5,000 points of sale in 130 countries.
- A range of products that meets the standards in the country in which they will be used.

Canadian Support

- 200 dedicated sales engineers operate from 22 regional sales centres and 13 technical service centres across Canada.
- Our sales engineers are skilled at assessing individual requirements. Combined with the expert support of our product specialists, they will develop the most effective and economical solution for you, taking relevant regulations and standards into account.
