Mac OS X	Mac OS X Mojave 10.14.1 (Build 18875)		✓		JRE 8.0 Update 162					✓
	Mac OS Server 5.7.1 (Build:18S1178)		✓		OpenJDK 11.0.1 JRE 8.0 Update 162 OpenJDK 11.0.1					✓

Note 1: Please note APC do not support the free version of VMware ESXi. A VMware license is required. Please refer to Knowledge Base **Answer ID #FA159705** at www.apc.com/support for further information.

Note 2: Browser Support covers IE 11, Chrome 70, Firefox 64 and Safari 12.01

Note 3: For operating systems not listed above, the previous v4.2 version is available for download from the software archive site at https://www.apc.com/us/en/tools/download/index.cfm?dl_method=display_archived

To see if v4.2 supports your required operating system, click here: https://download.schneider-electric.com/files?p_File_Name=ARAJ-BF4CSF_R0_EN.pdf&p_Doc_Ref=SPD_ARAJ-BF4CSF_EN

Note 4: Please refer to Knowledge Base **Answer ID #FA372837** and **FA372839** at www.apc.com/support for Nutanix environment support.

Note 5: Please note PowerChute Network Shutdown v4.3 is compatible with OpenJDK 13.0.1 GA (<http://jdk.java.net/13/>)
