# SmartStruxure Lite Solution

Delivering BIG savings for small-and medium-sized buildings

- > With the introduction of SmartStruxure Lite™ solution, small- to medium-sized commercial buildings now have an affordable building management solution to meet their needs. By providing anytime, anywhere access to building information on a simple user interface, SmartStruxure Lite solution lowers energy costs without compromising on comfort.

# High-performance meets affordability

SmartStruxure Lite solution is a fast, easy way to future-fit your small- to medium-sized building using Web and wireless technology to control HVAC, lighting, and metering. Save energy, save time, and improve comfort with minimal impact on operations.

## Get control

SmartStruxure Lite solution is an affordable solution for those who don't need or can't afford a large building management system — helping you control your building's energy costs and improve comfort for maximum productivity.

- > Flexible monitoring, control, and scheduling options
- > Simple Web interface delivers one-click access to your site's data
- > Wireless technology makes it a perfect solution for retrofits

Control your building of less than 10,000 square metres (100,000 square feet) for comfort and efficiency.

## Get efficient

Because you can't control what you don't measure, SmartStruxure Lite solution provides the tools you need to operate your small- to medium-sized building at peak efficiency.

- > Delivers immediate energy savings and reduced operational costs
- > Easy-to-operate mobile platform for anywhere, anytime access to integrated building data
- > View all your systems on a single, customisable user interface

## Get value

SmartStruxure Lite solution prepares your building for the challenges of rising energy prices and stricter efficiency regulations.

- > Scalable, future-proof solution that grows with your business
- > Instant return on investment through lower energy costs
- > Maintain day-to-day building operation during installation
