

Save money on your electricity bill by taking advantage of cheap rate periods

Customer's needs

Save money on energy costs, but still enjoy maximum comfort.

Recommendation

Automate the operation of your household appliances throughout the day. Use them only during the off-peak times specified by your electricity supplier.

Customer advantages

- Lower electricity bill.
- Simplified automated electrical circuits.
- Simple intuitive programming.
- Can be set in a panel to prevent untimely operation.

Product advantages

- Captive segment programming.
- Channel switching status (On, Off) programming display.
- Sealable swivel cover.
- Manual override option.
- Small dimensions (18 mm), extremely useful when renewing an existing installation.

IH

Efficiency
at your fingertips!

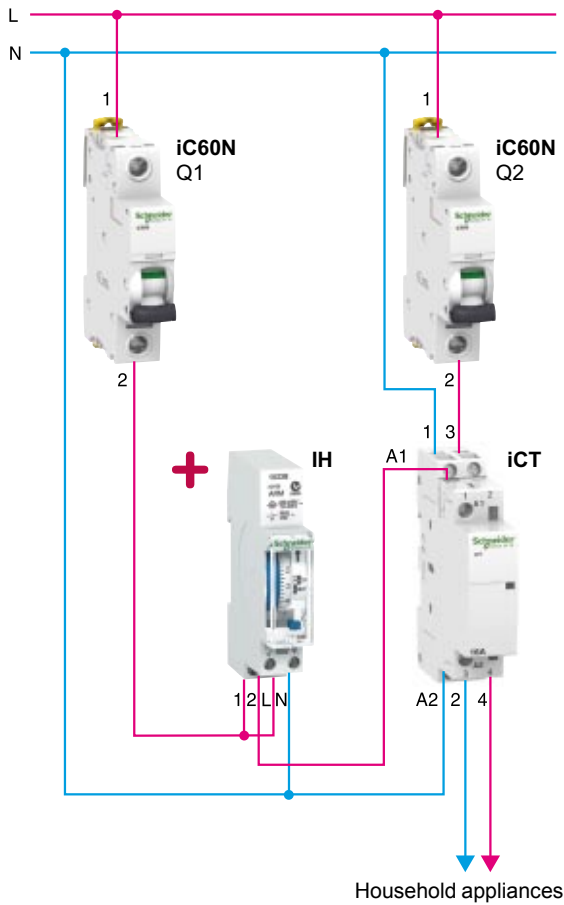

IH 24h 1c ARM

> Energy Efficiency benefits

> Automation provides significant energy savings and greater comfort.

Solution diagram

- IH daily programming in 15 min. increments will depend on the electricity supplier's tariff bands (for example, before 8 a. m., from noon to 2 p. m., after 6 p. m.).
- The iCT contactor protection circuit-breaker rating depends on installed power and load type.
