# Make your homes smarter and Wiser™

As technology advances, the demand for tech-optimized homes is on the rise. In 2016, 80 million smart home products were sold worldwide – a 64% increase on 2015 (HIS Markit). This demand is only set to increase with the global smart home market, projected to reach \$70,208.6 million by 2023 (P&S Market Research).

Home automation is going to transform the residential landscape, with smart homes becoming the norm. At Schneider Electric, we're leading the way with decades of innovation under our belt, and more than a century of electrical experience. As your partner, we can help you set your residential projects apart from the rest with Wiser smart home products, and drive interest that could translate into higher profits for your business.

Together, we can create homes with all the comfort, convenience, ambience and energy savings that your customers can enjoy today and into the future.

# Wiser

A smart home provides better comfort, convenience and safety to its occupants. With us, your home will be more than smart, it will be Wiser.

Wiser has been designed to make your home work for you. It takes care of the little things that improve your well-being every day; making your life richer and simpler.

## Wiser App

Your home, in the palm of your hand, at anytime, from anywhere. Whether you are at home, at work, or on vacation, you can always go into Wiser for more comfort, efficiency or safety.

## Wiser Home Touch

Always where it's supposed to be, the Home Touch is both the hub for your Wiser products, and a touchscreen from which the ideal ambiance is only one tap away.

## Heat

Your home, at the right temperature. From the warm comfort you want on a cold day, to the energy savings you get while you're away.

## Light

The ideal lighting for every moment. You'll see what you do everyday in a different light once the ambiance becomes perfect for reading, cooking, watching a movie, receiving guests...

## Shutter

Let the sunshine in, or not. It's a good day when your shutters wake you up gently with the morning sun, and give you privacy by coming down at sunset. And while away, they close to protect your home from the outside.

## Energy

Stay on top of your energy. Instantly know how much you are spending, and on what, and get notified if something requires your attention, for more efficiency and safety.

# Home Touch

Always where it's supposed to be. Your home at your fingertips.

The Home Touch is the hub connecting all products together. But with its crisp full-color touch display, it is much more than just a hub.

Whether you like your routine, or the unexpected, a single tap on your Home Touch is enough to change your whole home to give you comfort or efficiency, depending on whether you are home or away. From it, you can also trigger any of your Moments, whether you were about to cook, read or watch a movie. And in the morning, a quick glance at the outside weather on your Home Touch is all you need to know exactly what to wear for the day.

## Temperature control

For homes equipped with our heating products.

## Weather

You got out of bed and wonder what to wear today? Glance at your Home Touch and you'll be on your way...

## Home / Away / Sleep

Activate or override your main schedule in one tap

## Moments

Activate your Moments in one tap.

*“Where did I put my phone? Is it charging upstairs? Never mind. I can control my home from the Home Touch. It’s always where I expect it”*

*Sophie & Daniel; new home owners*

## Remote Control

The Wiser App lets you take complete control of your home, away from home, so you can regulate the temperature, lights, shutters, and more when you are out and about.

Did you forget to turn lights OFF when you left? Or maybe you'd like to warm your home just before your return. No worries, it's all in the app. Easy. Simple. Wiser.

Control, comfort and efficiency,  
in the palm of your hand.

*"I can create the perfect atmosphere for any Moments during our day. Whether we are having a movie night or reading before bed. I wish I could capture this moment."*

*Marc, 37; home owner, father and teacher*

Life Is On

**Schneider**  
Electric

Activate your Moments in one tap.  
Then, sit back and enjoy.

## Moments

Every day is made of little moments. With Wiser, you can create the perfect ambiance for all those moments. From waking-up, to cooking, enjoying a meal, exercising, or reading a book. Watching a movie? Create your Moment, and in one tap, dim the lights, close the shutters, and adjust the temperature in your living room to your liking.

## Schedules

Why do it yourself when you can let your home work for you? With schedules, your home can take care of itself. Morning, afternoon, evening, or night... once you schedule it, it gets done. No need to think about it.

TIME OF DAY	WISER WORKS FOR YOU	WISER FEATURE
6:00	Your heating system starts before you wake-up, so you are comfortable the minute you get out of bed.	HEAT 
8:00	Your shutters close when you go to work, for privacy, security, and to keep the hot or cold air out.	SHUTTERS 
From 8:00 to 16:30	While you're away, your home wastes no energy, so you maximize savings on your monthly utility bill.	AWAY 
16:30	Your heating system warms your home before your arrival from work.	HEAT 
17:00	As you get home, your exterior lights automatically turn ON, welcoming you back.	LIGHTS 

*“It is nice to know an app is making sure everything is OK in my home. And it will tell me if something is wrong. I feel on top of things.”*

*Maria, 30; home owner, mother and marketing director*

Life Is On

No worries. Wisier will notify you if something requires your attention.

## Notifications

Wisier is so smart that it will let you know if there's something you need to check on at home. It will send you notifications if there is a problem in your electrical panel. Or if your refrigerator has lost power. Or if your oven has been left ON for a long period of time. It can even tell you if your water pipes are in danger of freezing in the winter. Now you can always feel on top of things when it comes to keeping your home and family efficient and safe.

*“My heating system takes into account outside weather to adjust itself. That’s smart.”*

*Sarah, 36; home owner, mother and business consultant*

Control temperature  
via the Wisser App

Radiator Thermostat, part  
of our full range of heating  
control products

## Heating Control

Welcome to the home that knows the exact temperature to keep you comfortable. That means you'll be cozy on cold winter mornings, and will never walk into a cold home at the end of a long day. It regulates the temperature to your personal settings, and helps you save on energy costs by better managing your home's heating.

Odace Light Switch, part of our full range of lighting control products

## Lighting Control

Every home feels warmer when lights know when they should be ON or OFF. Lighting is also smart when it waits for you to be under the sheets before it lets the bedroom get dark.

From low lights for movie nights to brighter settings for kitchen forays, you can now set the mood in every room with a single tap. Now you can create the perfect ambience for any occasion, at any time of day or night.

Control lighting via the Wisier App

*“When we go out with the family in the evening, our lights simulate our presence. We feel our home is safer that way.”*

*Veronica, 42: home owner, mother and university professor*

A woman is sitting at a modern, glass-topped desk in a bright office. She is wearing a black and white checkered long-sleeved top, blue jeans, and gold loafers with red soles. She is holding a white mug with both hands. On the desk in front of her is a glass of orange juice on a coaster, a white telephone, and some papers. In the background, there is a large window with a view of trees, a black speaker, and a potted plant. The scene is lit with natural light from the window.

*“When we wake up in the morning, our shutters go up, letting the sunshine in. It’s funny, but it makes me feel richer.”*

*Bridget, 30; home owner, mother and public relations professional*

Control shutters  
via the Wiser App

Odace Shutter Switch, part  
of our full range of shutter  
control products

## Shutter Control

Let the sunshine in... or not. A gentle wake-up with the sun's early morning shine. A safe and efficient home protected from the outside elements. A cozy home that understands when you want privacy.

All of this is possible when your shutters are made Wiser. Set them to open or close at set times, with the sunrise or sunset, or even with your Moments, to add a little bit more magic...

Resi 9 Electrical Panel, part of our full range of energy monitoring products

## Energy

Knowing where your home's energy goes is powerful. Wisier monitors the energy usage in your home and appliances so you don't have to. And best of all, if something is not right you simply get a notification. Is there an issue in your electrical panel? Is the refrigerator OFF? Has the oven been left ON a bit too long? Is your stored solar energy being utilized? Wisier is there to help and will tell you if something requires your attention.

Manage energy via the Wisier App

*"While on vacation, I heard there was a bad storm back home. I'm not worried about my appliances or any short circuits. I have Wisier, and it will notify me if something requires my attention."*

*Edward, 44; home owner and accountant*

# A future-proof smart home

Wiser has been designed with the future in mind.

It is continually updated with new features and products, ensuring that a Wiser smart home will grow and adapt to the ever-evolving needs of home buyers.

Wiser also works with Amazon Echo and Apple Homekit, delivering all the flexibility occupants may desire to expand their smart home over time.

And, with Schneider Electric's network of 2 million electricians worldwide, you know there will always been someone ready to install Wiser in your homes, wherever you build them.

# A smart home. A better life.

At Schneider Electric, we've been making electricity in homes safe and reliable for more than 100 years.

Wiser is the result of decades of technological innovation delivering all new levels of comfort, convenience, safety and control.

Today's home buyers are smarter and more educated. They expect a lot from the money they spend, and pay more attention to detail.

A Wiser home gets noticed, setting itself apart from the rest by delivering more value for home buyers, today and in the future.

By partnering with us, you can help to create smart homes, smart cities and smart grids into the next century and beyond. Secure your spot in the future of home development by leading the way.

Smart homes for smart buyers.
