EcoStruxure™
Innovation At Every Level

Boost your machines and panels with a touch of style and robustness

Harmony, obviously

A touch of style for your electrical panels and machines without compromising on cost

Affordable modern design and flexibility to tailor your machines to your customers' preferences.

Pushbuttons, switches, and pilot lights you can trust

Extremely robust even in severe environments as proven by the compliance to international standards.

New products to enhance operator and process efficiency

With a dual audible and visual alarm, as well as IP69 dust and water resistance, the new Harmony buzzer brings unequaled operator efficiency, even in dusty or wet environments. Furthermore, the new products for explosive atmospheres provide you with solutions that comply with the relevant UL and IEC standards, for gas and dust/fiber.

The most comprehensive industrial pushbutton offer on the market

Get all your pushbuttons, switches, and pilot lights through a large network of distribution partners, reaching 17,000 points of sale worldwide.

Life Is On | Schneider Electric

Harmony for modern design at an affordable cost

- Harmony Flush XB4/XB5 pushbuttons deliver an attractive design that enhances the look and feel of your control panels and machines
- Tailor your control panels to respond to your customers' tastes as well as operators' needs
- A vibrant color palette energizing your machines' designs
- Better quality of your machines and panels
- Quick and easy installation

Select between plastic and metal offers according to your robustness expectations and environmental needs

- Compliance with international standards (IEC, UL, CSA, CCC, EAC)
- Marine-certified (BV, RINA, LROS, DNV, GL)
- High dust and water resistance level: IP66, IP67, IP69, IP69K, Type 4X
- Operating temperature range of -40 °C to +70 °C
- High impact resistance: up to IK06

New!

Products for explosive atmospheres

- NEC 500 Class 1 Div 2, Class 2 Div 2 and Class 3
- IECEx 60079 and UL 60079, zone 1/2/21/22

Buzzer

- Both buzzer and light can be continuous or intermittent on the same product
- Sound level: 90 dB at 10 cm
- Robust: IP66/67/69/69K
