

Reality just got better

Increase efficiency and decrease costs with EcoStruxure Augmented Operator Advisor: Augmented reality for instant diagnosis and contactless maintenance

EcoStruxure Augmented Operator Advisor puts real-time information at your fingertips, whenever and wherever it is needed. The custom application improves operational efficiency with augmented reality — enabling operators to superimpose the current data and virtual objects onto a cabinet, machine, or plant.

Real-time information at your fingertips

EcoStruxure™ Augmented Operator Advisor combines contextual and local dynamic information for mobile users, enabling them to experience a fusion of the physical, real-life environment with virtual objects.

Reduce downtime

Open electrical cabinet doors virtually.

Speed up operation and maintenance

Find information faster with immediate access in the field to real-time data, user manuals, instructions, diagrams, etc.

Reduce human errors

Locate the right equipment and guide operators step-by-step to complete maintenance procedures.

Download and try it now

- Visit the App Store or Google Play Store and download the EcoStruxure Augmented Operator Advisor app to your tablet
- Open the app, then log into “Demo” mode (no username or password required)
- Click “Sample” then select the demo Water Plant or Wood Machine, then click ‘Scenes’ and the start button
- Point the application at the selected image above and points of interest will automatically appear on the screen
