

# Uniflair LE Chilled Water Units

*The Uniflair LE series of chilled water cooling solutions from Schneider Electric is the optimal choice for cloud and colocation customers. With high cooling density per footprint and energy efficiency these perimeter units are designed for next generation data centers and high temperature applications*

## Control And Security

- EcoStruxure™ ready
- TLS 1.2 cybersecurity
- Touch screen color display
- Integrated network management card
- Modbus/BACNet/SNMP/Web
- Preventative maintenance alerts and alarm display
- Group control

## Service and Engineering Support

- Industry leading warranty
- 1 Year parts, labor and travel
- 24x7 Technical support
- Custom engineering capabilities

## Variable Speed EC Fans

- Active Flow Control (AFC) compatible
- Downflow or upflow air discharge
- Underfloor fan assembly

## Chilled Water System

- Low pressure drop slab coil
- Hydrophilic coil coating
- Draw through design
- Modulating 2/3-way valve

## Additional/Optional features

- Reheat and humidification
- Dual power supplies
- 65k SCCR rating
- Ultra capacitor for fast restart
- Active floor pressurization
- Direct air economization option
- Motorized isolation damper
- Condensate pump
- Plenum/floorstand
