

EcoStruxure Fire Expert Orientation Map

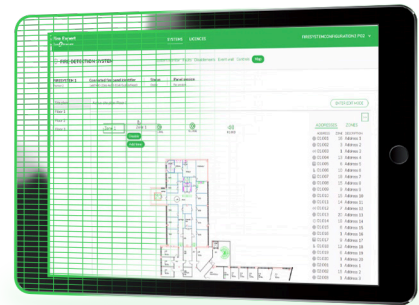

Map visualization and fire element operation with minimum effort

Esmi Sense FDP panels and EcoStruxure Fire Expert online solution let you optimize efficiency in your business. With Fire Expert you can online monitor and manage your fire systems with your PC, smartphone, or tablet anytime anywhere. To better meet the needs of users, the new Fire Orientation Map has been added to Fire Expert.

The Fire Orientation Map makes possible the localization, visualization and operation of the fire elements. The Orientation Map license gives immediately the overview of the fire elements' status and visualize data effectively and user friendly. There is no need for any additional software installation, the feature is part of EcoStruxure Fire Expert. For tablets 13.7 iOS and HD resolution device is minimum requirement. Mobile phone support will be released later.

EcoStruxure Fire Expert Orientation Map makes fire element status information clear and more intuitive

EcoStruxure Fire Expert Orientation Map license makes possible the floor plan visualization of your building. Only upload a map/floor plan which can be any svg, jpg or png format image. From the addresses and zones tree view you are able to see the active fire elements. The fire elements may also be placed to floor plans according their position in the installation. The users only need to drag and drop the fire elements or icons onto the area to start populating the floor plan. To operate the fire elements user just need to select them from the floor plan.

The Fire Orientation Map follows the plug-and-play philosophy and the users avoid the usual pre-tasks like programming, configuration and trainings. The zone and addresses tree view and fire elements placed on the floor plans present an clear view of the controlled elements. It is convenient to see information visually and you can deal with the issues both quickly and efficiently. The Orientation Map help users to make better decisions.

Fire Orientation Map license (FFS00704006) features;
