

# Water-tight technology and design

Merten Aquadesign

# Waterproof on the inside, beautiful on the outside

Merten Aquadesign

# Merten Aquadesign

The Merten Aquadesign range proves at first sight that functional can look good. Balanced proportions, a high-quality surface and an elegantly-shaped frame give the waterproof switch range an individual look.

Merten Aquadesign is weather-resistant, scratch-proof, UV-stable and available for an impressive range of products covering numerous applications. This ranges from switch rockers and indoor movement detectors through to communication inserts and special adapters for use by Merten System M components. Merten Aquadesign is typically used in: professional kitchens, laundries and outdoor areas such as terraces for example.

Polar white

## Special flush-mounted range

Watertight, scratch-proof and, thanks to its smooth thermo-plastic surface, easy to clean

Safe, above all for children: Increased protection against accidental contact in line with VDA 0620 (Part 1)

The bushing of both the standard snap-in version and the screw-in frame version is dowelled into the wall, which means Aquadesign provides increased protection against theft.

Watertight even when plugged in: Aquadesign with network connection insert

Special adapters ensure that: Aquadesign switches can also be used with all System M components. For example, this lockable telephone socket
