ENSURE FAST AND SIMPLE CHARGING

Schneider
Electric™

USB
CHARGER
SERIES

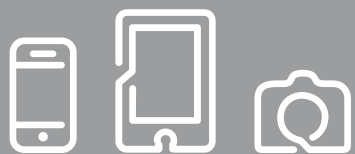

ENSURE FAST AND SIMPLE CHARGING.

Your smart phone ran out of battery and you are searching for the right charger? There is no need to. Recharge your electronic devices with our new USB CHARGER.

The USB CHARGER will make your charging more safe and comfortable. Since it is installed locally instead of a usual socket-outlet, searching for the recharger will be obsolete.

Rely on your USB CHARGER day-to-day - it is convenient, fast and simple.

MEETS YOUR RHYTHM. MATCHES YOUR DAILY LIFE.

Adjust your USB CHARGER to your way of living. Choose a basic charger for charging your smartphone and other small devices. For loading bigger devices and for the opportunity of charging your phone and tablet simultaneously go for an advanced charger - both can be applied by choice.

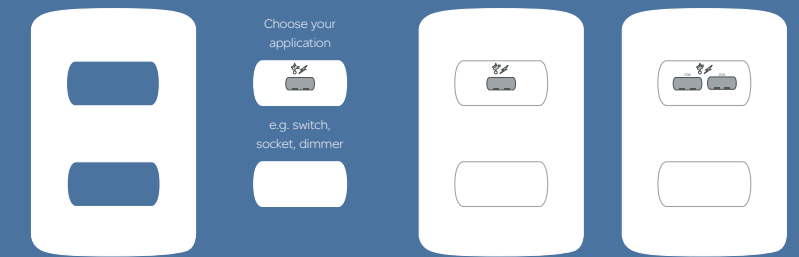

The new and innovative advanced USB CHARGER guarantees maximum energy efficiency providing fast charging and the highest safety regarding overcharging. It is compatible with USB technology for devices such as smart-phones, tablets, cameras, eBook readers and all main gadgets of world wide providers.

WISHING FOR AN UPGRADE?

Add or replace your common power socket-outlet in the wall with a new advanced USB CHARGER. Connect more devices at the same time at the same place.

The modular approach

Create with frame...

and inserts...

your own individual complete device
