

Domae: the right solution for every home

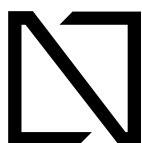

Household
switchboards

Domae, the offer adapted

1 Total safety

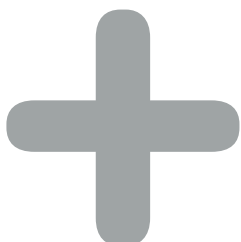

With the Domae offer, Schneider Electric guarantees the very best in quality for this entire product range (26 ISO 9001/ 2000 certified production and development sites world-wide).

What's more, because this range has been built to comply with European and international standards as well as Aenor requirements, you know you will be working in complete safety.

2 Simple to choose, easy to install

Domae makes life simple with this range of electrical products especially designed for the housing sector. You can rest assured that your switchboard will meet the requirements of IEC 60364 without changing any of your wiring habits.

- Fingersafe terminals, screws for flat-headed or recessed head screwdrivers.

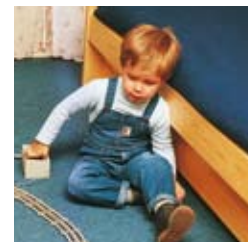

- Simple, fool-proof wiring.

to every home

3 Safe to use

Domae enclosures and switchgear have been designed to prevent electrical installation risks in the home. So you can be 100% sure that users will be protected against fire or electrocution hazards caused by short circuits, overloads or faulty devices.

4 A professional, good-looking design

With their especially attractive design (shape, marking, identification, reliability of terminals, etc.), Domae enclosures and switchgear make for elegant switchboards that fit in perfectly with the home. Easy to install and even simpler to use, your customers will be most impressed with your work.

● Easily identifiable circuits.

● A remarkable profile.
