

HORIZONTAL THINKING

neo®
face the future

Concepts rearranged.
Space renewed.

World-Renowned Design Innovations!

NEO shares its avant garde design with the internationally acclaimed NEO Intelligent Switch that had won multiple awards in Australia and USA.

Revolutionary horizontal dollies round off an outstanding example of cutting edge ingenuity which will always appeal to those wishing to stay ahead of changing trends.

Quality and Safety That's Built To Last

- Bullet-proof material face plate is less flammable, more shock resistant and provides outstanding insulation
- Spray-painted, silver coloured polyurethane coating ensures surrounds stay looking factory-fresh
- A smooth, silver spot-welded contact and silver-brass alloy bridge coupled with a robust spring puncher design ensure quicker contact making/breaking and significantly reduced arc generation
- Reinforced-nylon protective socket shutter prevents electric shocks caused by accidental insertion of conductive objects
- Seamless conductor bridge significantly reduces heat generation
- Switch operations are tested fully 80,000 cycles - double the international standard. All sockets can be plugged in and removed over 10,000 times and are designed to last more than a decade
- Fully compliant with IEC safety standards

Improved Structure Ensures Easier Installation

- Transparent polycarbonate housing enables easy viewing of mechanical functions
- Durable web-grid increases rigidity of plate
- Double thickness of mounting hole prevents risk of damage during installation
- Ovalshaped mounting hole ensures easy fixing and level adjustment
