USB Solutions

With the average home now containing a multitude of smartphones, tablets and other devices, there can often be issues of cable mess and a lack of available plug sockets. Our USB solutions directly help in solving this problem.

Instead of needing to unplug the toaster to charge your phone before work, you can now simply plug your lead into a USB slot – giving you a very simple solution to a modern day dilemma.

Our ranges are applicable to both residential and commercial installations, and benefit from all of the features and benefits of the already established Lisse and Ultimate ranges - allowing for a simpler, more connected life.

Wiring accessories become home accessories

The Lisse range includes several accessories that help to make your customer's lives simpler, convenient, and fun! Recharging mobile phones or tablets is made easy with the 2 gang shelf frame for Lisse sockets.

GGBL3020USBS & GGBLSHF2GS

Full Range

2 Gang Switched Sockets with 2 USB Outlets

Range	Description
Ultimate Screwless Flat Plate	
GGBGU3420USBWSS	Stainless steel with white interior
