

Transparency of form and function

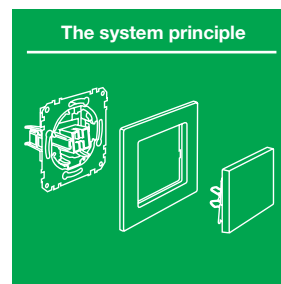

Merten Tracent

Switches can be beautiful

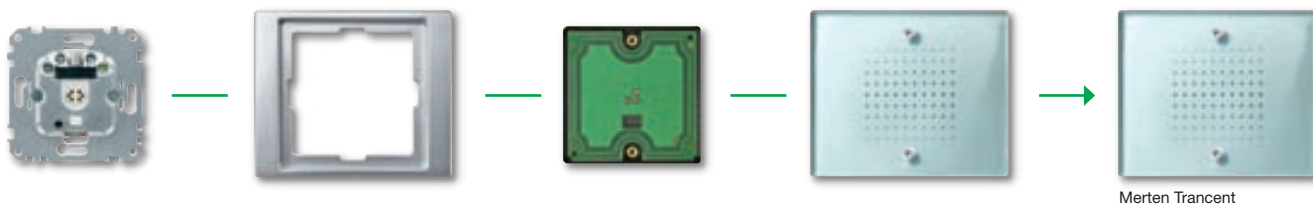

Merten Trancent

Merten Tracent

Modern architecture is marked by transparency and clarity. Merten Tracent matches this in every way. The first glass push-button in the world, with its clear form, blends perfectly into any modern surroundings. Light and blinds can be controlled by lightly touching the glass sensor cover.

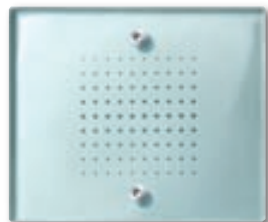

Merten Tracent insert + Frame + Control electronics + Glass surface = complete device
