

## APC AV Surge Protectors

Lightning and power surges can permanently damage your audio and video electrical equipment. And even small power events can influence the performance of your electronics. APC AV surge protectors offer guaranteed protection to your valuable equipment.

EMI/FRI line noise can cause data errors and if severe enough, an audible hum or buzzing sound from audio devices. APC AV Surge Protectors filter line noise, ensuring better performance of protected equipment.

# APC AV Surge Protectors

## Guaranteed Surge Protected Outlets

Ensure connected devices like a TV, receiver, DVR, and sound system are safe and protected from surges, spikes, and lightning strikes.

## Visual LED Indicators

LED indicators provide detail that protection is on and working.

## Fail Safe Mode

If the surge protector has been compromised, the unit disconnects equipment from power to ensure that no damaging surges reach your devices.

## Building Wiring Fault Indicator

Immediately warns you of wiring problems like improper grounds that could cause shocks or prevent adequately suppressing surges.

## Data Line Surge Protection\*

Surge-protected COAX connectors ensure surges traveling over cable TV, satellite, or RF antenna lines do not reach connected equipment.

## Lifetime Warranty and Equipment Protection Policy

Lifetime warranty and Equipment Protection Policy guarantee that the surge protector will be replaced if ever stops working.
