

# NetShelter SX with Shock Packaging

**“Rack and stack” made Easy for Equipment Integrators and Converged Deployments. Cabinet paired with shock absorbing pallet, unloading ramp, and impact resistant shell.**

## TWO-PIECE CARDBOARD OUTER WRAP

- > Easy reusable plastic locking clips
- > Convenient place for integrator logos
- > Conceals cabinet contents
- > Shields equipment from dust and debris

## PROTECTIVE FOAM PADDING

- > Protects all exterior sides from handling damage
- > Detailed instructions inside cardboard outer wrap and identifiers on foam pieces make repackaging easy

## EASY TO USE RAMP

- > Built in rails guide cabinet safely to floor
- > Stores within pallet footprint and easily attaches to pallet
- > Attaches securely to rear of pallet with guide pins

## PALLET MOUNTING BRACKETS

- > Secures cabinet to pallet during transit at front & rear
- > Supports weight load prolonging life of castors
- > Features access holes for bracket removal and easy lowering of the cabinet to the pallet deck for removal

## MULTI-LAYER PALLET

- > Absorbs impact and vibration during transit
- > Distributes cabinet load evenly across pallet
- > Supports weight of cabinet & equipment installed during integration / travel time

Height	Width	Depth	Part	Load rating inside cabinet
42 U	600mm (24in)	1070mm (42in)	AR3100SP	907kg (2000lb)
		1200mm (48in)	AR3300SP	907kg (2000lb)
	750mm (30in)	1070mm (42in)	AR3150SP	907kg (2000lb)
		1200mm (48in)	AR3350SP	907kg (2000lb)
45U	600mm (24in)	1070mm (42in)	AR3105SP	907kg (2000lb)
		1200mm (48in)	AR3305SP	907kg (2000lb)
	750mm (30in)	1070mm (42in)	AR3155SP	907kg (2000lb)
		1200mm (48in)	AR3355SP	907kg (2000lb)
48U	600mm (24in)	1070mm (42in)	AR3107SP	907kg (2000lb)
		1200mm (48in)	AR3307SP	907kg (2000lb)
	750mm (30in)	1070mm (42in)	AR3157SP	907kg (2000lb)
		1200mm (48in)	AR3357SP	907kg (2000lb)

**Cabinets designed to safely load, transport, unload and deploy a cabinet with up to 2000lb (900kg) of IT equipment installed.**

# NetShelter SX Cabinet for Shock Packaging

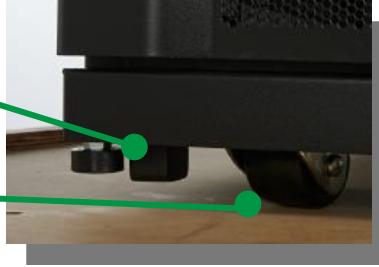

## ADDITIONAL MOUNTING RAIL FASTENERS

- > 24 additional fasteners beyond the standard equipment rail fasteners
- > Supports load even under high vibration
- > Holds rail position securely during transport

## CABINET ELEVATION BRACKETS

- > 4 brackets – 1 at each corner of the underside of the cabinet
- > Removes weight load from the casters and supports the weight load on the pallet brackets attached at front/rear of the cabinet

## HEAVY DUTY CASTORS

- > More durability, higher load ratings, and smoother rolling profile ensure proper performance at the delivery site

## FIXED REAR CASTORS

- > Fixed rear castors aid in guiding the cabinet straight down the ramp during unloading
- > Improves steering when fully loaded

## MULTIPLE HEIGHTS, WIDTHS, DEPTHS

- > Now available globally in more heights, widths, depths of NetShelter SX cabinets than ever before
- > 24U option AR3104SP1 still available but with 1250lb (600kg) load rating and alternate packaging components than shown for 42, 45, & 48U cabinets

## Customer Experiences

*Companies are already using NetShelter cabinets and shock packaging for their customer's applications.*

- > Cloud system migration from Orlando Florida Think Exhibit to Research Triangle Park in North Carolina.
- > Also migrated system to a wider/deeper cabinet with more space for cable management and Rack PDUs

- > Delivered fully populated EMC VSPEX converged systems from Avnet Integration facility to Las Vegas, NV for EMC World event
- > Return shipment of systems from EMC World to demo centers
