ZENcelo  
be in-standing

## In-standing.

An outstanding person adds value to the work and life of other people, always doing the right thing at the right place, with a just-right degree of visibility.

After all, the art of addition is not about shouting out loud. It's about an in-standing way of being.

ZENcelo, the revolutionary Full-Flat switch for an in-standing interior design.

## The Revolutionary Full-Flat Switch

The Full-Flat form factor has redefined many facets in life. Aeroplane seats. TVs. Mobile phones. Electric stoves... And now switches. Aesthetically pleasing flat switches are in fact available. But only exclusive to luxurious electronic switches and lighting automation systems. The ZENcelo Full-Flat switch has been created for the majority who use electro-mechanical switches. Even on switches you never imagined can be Full-Flat... With ZENcelo, luxury is no longer defined by price. But by wisdom - and style.

### Enabled by a New Physics

Switch designs are limited by many factors, primarily the switch mechanism. The patented "impress" (iso-motion-press) mechanism ensures the switch dolly remains stationary when it is "on" or "off", and at the same time occupying a much smaller footprint. Freedom in design has become a reality. Enabled by impress.mechanism, ZENcelo makes the future flatter than you ever imagined.

### Indicate the Current Status

Form does not sacrifice function. Knowing when the Full-Flat switch is turned on is not taken for granted. The patent-pending "Ondicator" changes to marigold when turned "on". And blends into the same colour as the dolly when "off". Meticulously designed to the finest detail - Not only for looks, but also for practicality.

### Embrace Quality

Made of corrosion resistant, heat resistant and impact resistant polycarbonate. Data socket with patented integrated shutter. Electrical socket with reinforced -nylon protective shutter. Switches are electric arc encapsulated. Philips head screw to fit both flat and cross head screwdrivers. Switches tested to 10,000 times. Sockets tested to 15,000 cycles. Durable to last more than a decade. IEC, BS, SS, MS, GB, CCC and/or IS compliant. All RoHS compliant.
