

CERTIFICATE NUMBER 23-2408680-PDA

EFFECTIVE DATE 9-June-2023

EXPIRATION DATE 8-June-2028

ABS TECHNICAL OFFICE Yokohama Engineering Services

CERTIFICATE OF

Product Design Assessment

This is to certify that a representative of this Bureau did, at the request of

SCHNEIDER TOSHIBA INVERTER EUROPE SAS

located at

33 RUE BLANCHET, ,PACY SUR EURE,France-27120

assess design plans and data for the below listed product. This assessment is a representation by the Bureau as to the degree of compliance the design exhibits with applicable sections of the Rules. This assessment does not waive unit certification or classification procedures required by ABS Rules for products to be installed in ABS classed vessels or facilities. This certificate, by itself, does not reflect that the product is Type Approved. The scope and limitations of this assessment are detailed on the pages attached to this certificate.

Product Frequency Converter

Model Altivar ATV 930 / ATV 950

Endorsement Other

This Product Design Assessment (PDA) Certificate remains valid until 8/June/2028 or until the Rules and/or Standards used in the assessment are revised or until there is a design modification warranting design reassessment (whichever occurs first).

Acceptance of product is limited to the "Intended Service" details prescribed in the certificate and as per applicable Rules and Standards.

This Certificate is valid for installation of the listed product on ABS units which exist or are under contract for construction on or previous to the effective date of the ABS Rules and standards applied at the time of PDA issuance. Use of the Product for non-ABS units is subject to agreement between the manufacturer and intended client.

American Bureau of Shipping

Motohiro Tamura
Engineer/Consultant

NOTE: This certificate evidences compliance with one or more of the Rules, Guides, standards or other criteria of ABS or a statutory, industrial or manufacturer's standards. It is issued solely for the use of ABS, its committees, its clients or other authorized entities. Any significant changes to the aforementioned product without approval from ABS will result in this certificate becoming null and void. This certificate is governed by ABS Rules 1-1-A3/5.9 Terms and Conditions of the Request for Product Type Approval and Agreement (2010)

Tier: 5 - Unit Certification Required

Product: Frequency Converter
Model: Altivar ATV 930 / ATV 950
Endorsements:

Intended Service:

For use on ABS Classed Vessels and Offshore Installations in accordance with the listed ABS Rules, National and International Standards.

Description:

ATV 930 and ATV 950 are a range of Variable Speed Drive solution based on Altivar 9xx process and are dedicated for smoothly starting or stopping asynchronous motors. It provides a solid-state motor overload protection including thermal memory, memory retention and speed sensitive circuitry for motor overload-temperature protection.

Two series of variable speed drives:

- ATV930 power ratings cover 0.75kW to 315kW (Frame: Size 1 to Size 7)
- ATV950 power ratings cover 0.75kW to 90kW (Frame: Size A, Size B and Size C)

Rating:

ATV 930 Series

1. Power supply: 220-240Vac;
Motor power: 0.75kW to 75kW;
Enclosure protection: IP20;
2. Power supply: 380-480Vac;
Motor power: 0.75kW to 315kW;
Enclosure protection: IP20;
3. Power supply: 575-690Vac;
Motor power: 2.2kW to 90kW;
Enclosure protection: IP20;

ATV 950 Series

1. Power supply: 380-480Vac;
Motor power: 0.75kW to 90kW;
Enclosure protection: IP55;

Note: Refer to Variable Speed Drives Altivar 900 catalog for additional details.

Service Restriction:

Unit Certification will be required for this product when used in applications having a rated power of 100 kW (135 hp) and over intended for essential services as specified in :

- 1) Marine Vessels Rules 4-8-1/Table 1 & 2, 4-8-3/1.5, 4-8-3/5.11, 4-8-3/8.1, and
- 2) Mobile Offshore Units Rules 4-1-1/ Table 3 & 4) or for services related to additional optional notations requested for the drilling unit as per 6-1-7/9.1.1(b) and 6-1-7/19.7 of the Mobile Offshore Units Rules.

As per Marine Vessels Rules 4-8-3/1.5 and 4-8-3/8.1, when the drive is intended for essential services i.e. to control motors of 100kW or above, it will be subject to a plan review.

Assessment is for Hardware only and no functionality is included in this assessment.

Comments:

1. The Manufacturer has provided a declaration about the control of, or the lack of Asbestos in this product.
2. Drive is to be installed in an Enclosure with IP rating to be based on 4-8-3/Table 2 of the Marine Vessels Rules.

Email: eric.delaune@se.com

Web: schneider-electric.com

Tier: 5 - Unit Certification Required

3. Drive is to be installed in environmentally controlled space.
4. Wiring schematics & assembly drawings to be submitted for each installation.
5. Type of enclosure is to be selected in accordance with the 4-8-3/1.11 and 4-8-3/Table 2 of the Marine Vessels Rules and 4-3-3/Table 1 of the Mobile Offshore Units Rules as applicable.
6. ATEX certified equipment is not to be installed in hazardous areas on U.S. Flagged Vessels, unless it can be proven to have been tested to the IEC 60079 series standards by an independent laboratory accepted by the U.S. Coast Guard. Reference: USCG MI Notice 01-12 (February 7, 2012)
7. Refer to the Manufacturer's manual for installation details.

Notes/Drawing/Documentation:

See Attachment.

Terms of Validity:

This Product Design Assessment (PDA) Certificate remains valid until 08/Jun/2028 or until the Rules and/or Standards used in the assessment are revised or until there is a design modification warranting design reassessment (whichever occurs first).

Acceptance of product is limited to the "Intended Service" details prescribed in the certificate and as per applicable Rules and Standards.

This Certificate is valid for installation of the listed product on ABS units which exist or are under contract for construction on or previous to the effective date of the ABS Rules and standards applied at the time of PDA issuance. Use of the Product for non-ABS units is subject to agreement between the manufacturer and intended client.
