CSA 22.2 No. 88-1958 - Industrial Heating Equipment

Additional Information:

See the UL Online Certifications Directory at www.ul.com/database for
additional information

Only those products bearing the UL Recognized Component Marks for the U.S. and Canada should be considered as being
covered by UL's Recognition and Follow-Up Service and meeting the appropriate U.S. and Canadian requirements.

The UL Recognized Component Mark for the U.S. generally consists of the manufacturer's identification and catalog
number, model number or other product designation as specified under "Marking" for the particular Recognition as
published in the appropriate UL Directory. As a supplementary means of identifying products that have been produced
under UL's Component Recognition Program, UL's Recognized Component Mark:  may be used in conjunction with the
required Recognized Marks. The Recognized Component Mark is required when specified in the UL Directory preceding
the recognitions or under "Markings" for the individual recognitions. The UL Recognized Component Mark for Canada
consists of the UL Recognized Mark for Canada:  and the manufacturer's identification and catalog number, model
number or other product designation as specified under "Marking" for the particular Recognition as published in the
appropriate UL Directory.

The final acceptance of the component is dependent upon its installation and use in complete equipment submitted to UL
LLC.

Look for the UL Recognized Component Mark on the product.
