## DECLARATION OF COMPATIBILITY

between Ecolab hygiene products and Telemecanique Food and Beverage processing series sensors.

**For the completely safe cleaning of your detection equipment**

**Telemecanique**

Sensors

**Sensors designed for Food and Beverage processing industries:**

**Cylindrical photo-electric sensors: mono-mode and transparent materials detection**

The declaration concerns tests relating to sealing and electrical operation, both before and after the use of the ECOLAB cleaning products stated, and therefore proves the high resistance of these sensors to detergent products.

## Test procedure

Ecolab reference method – Test performed by Telemecanique Sensors

- Full immersion of parts in detergent solutions
- water hardness of 300ppm CaCO<sub>3</sub>
- 28 days total time at 20°C
- Concentrations tested higher than those recommended
- Visual evaluation followed by tests to verify correct operation
- Telemecanique Sensors test reports: 13-1201, 13-1202 and 13-1203.

For optimal application of Ecolab products please refer to Ecolab specific open surfaces hygiene recommendations
