Product End-of-Life Instructions

Product Range: Motor Logic Solid State Overload Relay
Marketing Model/Name: The End of Life Instruction (EoLI) covers the entire range:
- Current rating from 1.5 FLA to 45 FLA
- Single or Three Phase
- Separate Mount or for Replacement on Type S Starter

Purpose:
The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

Size in inches (mm):
2.69in x 3.26in x 3.9in (69mm x 83mm x 99mm)

Weight in lbs (kg):
Between 1.09 lbs (493g) and 1.30 lbs (590g) without battery
Operations recommended for the end of life treatment

There are several steps to process the products at the end of life so as to recover components, materials or energy:

1. Reuse
2. Separation for special treatment
3. Other dismantling
4. Shredding.

The components of the products that optimize the recycling performances are listed, identified and located hereunder.
