

# Product End of Life Instructions

**Analog & Digital pH and ORP Sensors with 3/4-in NPT Process**

**Process Liquid Analytical**

## End of Life Instructions

Recommendation	Number on drawing	Component / Material	Weight (in g)	Comment
To be depolluted	1	Electronic Board (Communication) > 10cm <sup>2</sup>	8.7	
To be depolluted	2	Cable (high current)	3.5	
Other		Metals, Semimetals, Plastic and Others	146.5	

## Product description

Manufacturer identification	Schneider Electric Industries SAS
Brand name	Schneider Electric
Product function	The DolpHin Series is a family of high performance pH and ORP sensors to measure and transmit electrochemical data (pH and ORP) to a smart transmitter.
Product reference	PH10
Additional similar product references	This Document covers PH10, PH12MM and EP462A for Analog & Digital pH and ORP Sensors with 3/4-in NPT Process
Total representative product mass	158.7 g
Representative product dimensions	179.3mm(H) x 26.9mm(W) x 26.9mm(D)
Accessories	No accessories needed
Date of information release	02/2025

## Additional information

Legal information	This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE). The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.
In case of special transportation: transportation method	No special transportation
Recyclability potential	<b>2%</b> The recyclability rate was calculated from the recycling rates of each material making up the product based on REEECY'LAB tool developed by Ecosystem, for components/materials not covered by the tool, data from the EIME database and the related PSR was taken. If no data was found a conservative assumption was used (0% recyclability).
