The Schneider Electric Critical Power and Cooling Solutions (CPCS) Non-Modular Battery Disposal Service provides battery collection, removal and disposal service for customers.

The Non-Modular Battery Disposal Service provides the following:

- Trucking of the waste batteries to the approved recycling center location.

The Non-Modular Battery Disposal Service relieves the customer's waste battery disposal concerns and provides assurance their spent batteries will not be improperly disposed of by complying with local disposal regulations.

2.0 Features & Benefits

Features	Benefits
Battery Removal and Disposal	Guarantees the removal and disposal of batteries adhere to all federal, state and local environmental regulations.
Flexible Scheduling	Scheduling of the battery collection and recycling service is coordinated to suit the customer's needs.

3.0 Details of Service

The Non-Modular Battery Disposal Service provides the on-site labor to remove the waste batteries from the site along with the shipping and recycling of the batteries. The specific activities of this service are listed below:

Service Deliverables	
Activity	Description
Waste Battery Shipment	CPCS Authorized Professionals will remove and ship depleted batteries to an authorized recycling center.

4.0 Assumptions

The successful performance of the tasks defined in this Statement of Work is based on the following key assumptions, which are agreed to by Schneider Electric CPCS:

- The Non-Modular Battery Disposal Service is applicable to Schneider Electric CPCS systems using sealed lead acid batteries only. Please contact your certified CPCS sales representative for wet cell applications;
- The Non-Modular Battery Disposal Service is quoted per battery;
- This is a standardized service and only applies to a customer location with standard site and product access. Any special site conditions, such as no truck access, no loading dock, no elevator access, etc. may require a special quote;
- The customer understands this service only provides the site removal of depleted batteries;
- Battery Replacement Service for Non-modular systems minimum order size is one complete battery string.

The following items **are not included** in the scope of this service:

- Removal of non-APC batteries;
- Battery Installation;
- Non APC by Schneider Electric Equipment;
- Wet Cell Batteries;
- Support for third party equipment.

5.0 Scope of Responsibility

The items stated here are responsibilities of both Schneider Electric CPCS and the customer.

5.1 SCHNEIDER ELECTRIC CPCS RESPONSIBILITIES

- Meet the pre-determined scheduled service date;
- Perform the battery disposal service activities listed in this Statement of Work.

5.2 CUSTOMER RESPONSIBILITIES

- Provide dates and times when the scheduled work can be performed;
- Provide a suitable location for the preparation and truck loading of the depleted batteries;
- Facilitate site access for Schneider Electric CPCS representative and provide on-site point of contact.

6.0 Project Work Details

The project work details listed below are provided by Schneider Electric CPCS for the customer with regard to service date, place and completion criteria.

6.1 SCHEDULE

Actual set dates will be discussed and approved between Schneider Electric CPCS and the customer.

6.2 LOCATION

The location of this service will be on-site and will be agreed to by Schneider Electric CPCS and the customer prior to the service delivery.

6.3 COMPLETION CRITERIA

Schneider Electric CPCS is expected to have finished its written duties when any of the following occurs:

1. Schneider Electric CPCS completes all the tasks described in Section 3.0 of this SOW;
2. This service and Statement of Work are terminated for other reasons within the Schneider Electric CPCS Customer Agreement.

7.0 Terms and Conditions

Schneider Electric standard Terms and Conditions apply.

The information provided in this Scope of Work cannot be used or duplicated, in full or in part. Other uses for this document are prohibited without written consent by Schneider Electric. All documentation, photographs, imaging or other information provided by the customer, or gathered at the customer site, will be for internal use only and used solely for the purpose of report generation, analysis and recommendations.

All services' conditions included in this document apply (i) only between Schneider Electric and that organization that bought the Services Solutions; and (ii) only to those products and services ordered by the Customer at the time that the Schneider Electric Services information is current. Schneider Electric may change the Schneider Electric Services Information at any time. The Customer will be notified of any change in the Schneider Electric Services Information in the manner stated in the then current product ordering and/or services solutions related agreement between Schneider Electric and the Customer, but any such change shall not apply to products or service ordered by the Customer prior to the date of such change.

Schneider Electric will have no obligations to provide Services Solutions with respect to equipment and assets that are outside the Service Area. "Schneider Electric Service Area" means a location that is within (i) one hundred (100) miles or one hundred and sixty (160) kilometers radius of a Schneider Electric service location; and (ii) the country in which the Installation site is located, unless otherwise defined in the governing agreement with Schneider Electric, in which case the definition in the governing agreement prevails.

Products or services obtained from any Schneider Electric partner or reseller are governed solely by the agreement between the purchaser and the reseller. That agreement may provide terms that are the same as the Schneider Electric Services Solutions on this document. Please contact the reseller or the local Schneider Electric sales representative for additional information on Schneider Electric Services Solutions on Products obtained from a reseller.
