- 7.0 Terms & Conditions

The Schneider Electric Critical Power and Cooling Solutions (CPCS) Modular Power Disposal Service provides UPS component collection, removal, and disposal service for customers when purchased in conjunction with Modular Power Revitalization Service (MPRS).

Modular Power Disposal Service provides the following:

- Transport of the used UPS components to the approved recycling center location

Modular Power Disposal Service provides assurance that removed components will not be improperly disposed of by complying with local disposal regulations.

2.0 Features & Benefits

Features	Benefits
UPS Component Removal and Disposal	Guarantees the removal and disposal of UPS components adhere to all federal, state and local environmental regulations.
Flexible Scheduling	Scheduling of the UPS component collection and recycling service is coordinated to suit the customer's needs.

3.0 Details of Service

Modular Power Disposal Service provides the on-site labor to remove the used UPS components from the site along with the shipping and recycling of the components. The specific activities of this service are listed below:

Service Deliverables	
Activity	Description
Used Component Shipment	CPCS Authorized Professionals will remove and ship used UPS components to an authorized recycling center.

4.0 Assumptions

The successful performance of the tasks defined in this Statement of Work is based on the following key assumptions, which are agreed to by Schneider Electric CPCS.

- Modular Power Disposal Service should be purchased in conjunction with Modular Power Revitalization Service (MPRS).
- Modular Power Disposal Service is quoted based on the customer's specific installation and location.
- This is a standardized service and only applies to a customer location with standard site and product access. Any special site conditions, such as no truck access, no loading dock, no elevator access, etc. may require a special quote.
- The customer understands this service only provides the site removal of used UPS components.

The following items **are not included** in the scope of this service:

- Removal of Non-Schneider Electric equipment
- UPS Component Installation
- Support for third party equipment

5.0 Scope of Responsibility

The items stated here are responsibilities of both Schneider Electric CPCS and the customer.

5.1 SCHNEIDER ELECTRIC CPCS RESPONSIBILITIES

- Meet the pre-determined scheduled service date
- Perform the Modular Power Disposal Service activities listed in this Statement of Work

5.2 CUSTOMER RESPONSIBILITIES

- Provide dates and times when the scheduled work can be performed
- Provide a suitable location for the preparation and truck loading of the used UPS components
- Facilitate site access for Schneider Electric CPCS representative and provide on-site point of contact

6.0 Project Work Details

The project work details listed below are provided by Schneider Electric CPCS for the customer with regard to service date, place and completion criteria.

6.1 SCHEDULE

Actual set dates will be discussed and approved between Schneider Electric CPCS and the customer.

6.2 LOCATION

The location of this service will be on-site and will be agreed to by Schneider Electric CPCS and the customer prior to the service delivery.

6.3 COMPLETION CRITERIA

Schneider Electric CPCS is expected to have finished its written duties when any of the following occurs:

1. Schneider Electric CPCS completes all the tasks described in Section 3.0 of this SOW.
2. This service and Statement of Work are terminated for other reasons within the Schneider Electric CPCS Customer Agreement.

7.0 Terms and Conditions

APC standard Terms and Conditions apply.
