Product End-of-life Instruction

Purpose

The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

Note

This product family is in the scope of EU directive 2002/96/EC, Waste Electrical and Electronic Equipment (WEEE).

Operations recommended for the end of life treatment

There are several steps to process the products at the end of life so as to recover components, materials or energy : Reuse → Depollution → Dismantling → Shredding.

The components of the products that are recommended to be depolluted (according to the WEEE 2002/96/EC list) or that are recommended to be reused or dismantled so as to improve the material recovery or that lead to some hazard are listed, identified and located hereunder.

Number on drawing	Components	Weight	Comment
