

# Product End-of-Life Instructions

**Product Range: EASYPACT 250**

**Marketing Model/Name:**

**The End of Life Instruction (EOLI) covers the entire range:**

- EasyPact 250, 3-pole or 4-pole circuit breaker rated at 250 A.
- Fitted with a thermomagnetic tripping device.

## **Purpose:**

The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

## **Note :**

This product family is in the scope of EU directive 2002/96/EC, Waste Electrical and Electronic Equipment (WEEE).

**Size in mm**

**H x L x D in mm:** 165 x 105 x 60 for a 3-pole  
165 x 140 x 68 for a 4-pole

**Weight in kg :** 1.3 kg for a 3-pole  
1.8 kg for a 4-pole

## Operations recommended for the end of life treatment

There are several steps to process the products at the end of life so as to recover components, materials or energy :  
Reuse → Depollution → Dismantling → Shredding.

**The components of the products that optimize the recycling performances are listed, identified and located hereunder.**

**This product contains components made of bromide materials which are recommended to be treated separately during the End of Life operations.**

Number on drawing	Components	Weight (g)	Comment
Components listed for special treatment			
1	Middle Cover B	70.15 g	Contains brominated flame retardant. <i>Push the trip button (2) before excluding the middle cover B, and make a breaker a trip state.</i>
