

Product End-of-Life Instructions

EVLink Residential charging station

Product End-of-Life Instructions – EoLI

Product overview

Product Range: EVLink Residential Charging Station

Marketing Model/Name: This range consists of 139X (GDP)

Size: H x L x D in mm = 323 x 242 x 100

Weight: in kg = between 3.142 kg and 5.157 kg including packaging

Purpose

The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

Operations recommended for the end of life treatment

There are several steps to process the products at the end of life so as to recover components, materials or energy : **Reuse → Separation for special treatment → Other dismantling → Shredding**

The components of the products that optimize the recycling performances are listed, identified and located hereunder.

Recommendation	Number on drawing	Components	Weight (in g)	Comment
Components listed for special treatment which improves the recycling performances				
	1	Printed circuit boards	94 g	Basic PCBA
	2	Printed circuit boards	41 g	TI PCBA

EoLI achieved with Schneider-Electric TT03 V5 procedure
