

# Product End-of-Life Instructions

## Product Range: Easergy Flair 599

### Purpose:

The product must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

### Note:

This product family is not in the scope of EU directive 2002/96/EC, Waste Electrical and Electronic Equipment (WEEE).

### Size:

H x L x D (mm): 280 x 200 x 67

### Weight:

Around 1kg

## Operations recommended for the end of life treatment

There are several steps to process the products at the end of life so as to recover components, materials or energy :  
 Reuse → Separation for special treatment → Other dismantling → Shredding.

**The components of the products that optimize the recycling performances are listed, identified and located on the schematics below.**

Recommendation	Number on drawing	Components	Weight (g)	Comment
<b>Special treatment</b>	1	PCB Assemblies, LCD	≈430	
	2	Supercapacitor or batteries	≈30	Depending on product version, there may be supercapacitors, batteries or nothing in this location
<b>Other dismantling</b>		Rest of device	≈650
