

Product End of Life Instructions

VAMP 200 range

This document explains the dismantling of the medium voltage protection relays of the VAMP 200 range.

Potential disassembly risks

CAUTION

HAZARD OF ELECTRIC SHOCK, ELECTRIC ARC OR BURNS

- Only qualified personnel should disconnect this equipment.
- NEVER work alone during the electrical disconnection of the relay.
- Turn off all power supplying this equipment before the relay disconnecting.
- Consider all sources of power, including the possibility of backfeeding.
- Always use a properly rated voltage sensing device to confirm that all power is off.
- Before disconnecting the wires of inputs current transformers, short-circuit the current transformer secondary circuits.
- Finish by disconnecting the device to the protective earth and to the functional earth.

Failure to follow these instructions will result in death or serious injury.

End of Life Instructions

Recommendation	Number on drawing	Component / Material	Weight (in g)	Comment
Potential hazards	1	NA		
Potential hazards	2	NA		
To be depolluted	3	PCBAs incl capacitors, LCD screen	1573	
To be dismantled	4	Rest of relay	3692	
Other	5	NA		

Product description

Manufacturer identification	Schneider Electric Industries SAS
Brand name	VAMP 200
Product function	Protect electrical systems against faults, (short circuit, over load ...) 24h per day, for 10 years of continuous operations in Europe.
Product reference	VAMP 255
Additional similar product references	VAMP 210, VAMP 230, VAMP 45, VAMP 245, VAMP 257, VAMP 259, VAMP 230, VAMP 265 and VAMP 265M.
Total representative product mass	Weight = 4950 up to 5550 g
Representative product dimensions	H x L x D = 215 x 160 x 275 mm
Accessories	
Date of information release	04/2017

Additional information

Legal information	<p>The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.</p> <p>This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE).</p>	
In case of special transportation: transportation method		
Recyclability potential	75 %	Based on "ECO'DEEE recyclability and recoverability calculation method" (version V1, 20 Sep. 2008 presented to the French Agency for Environment and Energy Management: ADEME).
