End of Life Instructions

ENVEOLI1808006_V1

11/2018

Introduction

Purpose

This equipment must be disposed according to the legislation of the country where it is situated. This document provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

Scope

The document provides the user with the basic information needed to dismantle the product in the recycling plant.

The presented document covers one reference from the V221 range. Other references can have different PCBA boards.

It indicates, for the various parts of the product, the recommendations according to the recycling criteria (potential hazards, to be depolluted, to be dismantled).

This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE).

Product description

Manufacturer identification	Schneider Electric Industries SAS
Brand name	Schneider Electric
Product function	Protect electrical systems against arc flash - Maximize energy availability and the profits generated by customer installation while protecting life and property.
Product reference	VAMP 221
Additional similar product references	none
Total representative product mass	4311 g
Representative product dimensions	H x L x D =155 mm X 236 mm X 208 mm
Accessories	None
Date of information release	11/2018

Additional information

In case of special transportation: transportation method	none	
Recyclability potential	61%	

Operations recommended for the end of life treatment

Recommendation	Nbr on Drawing	Component / Material	Weight (in g)	Comment
Potential hazards	1	NA		
To be depolluted	2	PCBA's including Capacitors, IC's, Resistors, Connectors etc.,	1471	
To be dismantled	3	Enclosures with accessories	2840	
Other	5	NA
