

Product End of Life Instructions

Ecostruxure Datalogger 4G LTE

End of Life Instructions

Recommendation	Number on drawing	Component / Material	Weight (in g)	Comment
To be depolluted	1	Electronic Board (Communication) > 10cm ²	136.2	
To be depolluted	2	Battery (Lead-acid)	220.7	
To be dismantled	3	Metals and semimetals	28.02	
To be dismantled	4	Cables	27.11	
Other		Plastics and Other parts	494.97	

Product description

Manufacturer identification	Schneider Electric Industries SAS
Brand name	Schneider Electric
Product function	The Ecostruxure Data Logger is an ultra-low-power, fully autonomous, wireless telemetry device that collects data from sensors and transmits it securely to a cloud /on premise server
Product reference	DLLTE4-PR
Total representative product mass	907 g
Representative product dimensions	165 mm (H) x 132 mm (W) x 73 mm (D)
Accessories	No accessories needed
Date of information release	08/2021

Additional information

Legal information	This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE). The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.	
In case of special transportation: transportation method	No special transportation required.	
Recyclability potential	30%	Based on "ECO'DEEE recyclability and recoverability calculation method" (version V1, 20 Sep. 2008 presented to the French Agency for Environment and Energy Management: ADEME).
