

Product Environmental Profile

TREND SWITCH

General information

Representative product	TREND SWITCH - WDE006617
Description of the product	The main function of Trend switch is to establish, support and interrupt current in normal conditions.
Functional unit	To establish, support and interrupt for 20 years rated currents in normal conditions of circuit characterized by the current 16A, for the operating voltage 250V for a specified time with EN 60669-1 standards.

Constituent materials

Reference product mass	130 g	including the product, its packaging and additional elements and accessories
------------------------	-------	--

Plastics	58.3%
Metals	33.4%
Others	8.4%

Substance assessment

Products of this range are designed in conformity with the requirements of the RoHS directive (European Directive 2011/65/EU of 8 June 2011) and do not contain, or only contain in the authorised proportions, lead, mercury, cadmium, hexavalent chromium or flame retardants (polybrominated biphenyls - PBB, polybrominated diphenyl ethers - PBDE) as mentioned in the Directive

As the products of the range are designed in accordance with the RoHS Directive (European Directive 2002/95/EC of 27 January 2003), they can be incorporated without any restriction in an assembly or an installation subject to this Directive.

Details of ROHS and REACH substances information are available on the Schneider-Electric Green Premium website

Additional environmental information

The TREND SWITCH presents the following relevant environmental aspects

Manufacturing	Manufactured at a Schneider Electric production site ISO14001 certified
Distribution	Weight and volume of the packaging optimized, based on the European Union's packaging directive Packaging weight is 44.4 g, consisting of PET film (77.46%), cardboard (11.27%), paper (11.27%) Product distribution optimised by setting up local distribution centres
Installation	The product does not require special installation procedure and requires little to no energy to install. The disposal of the packaging materials is accounted during the installation phase (including transport to disposal).
Use	The product does not require special maintenance operations.
End of life	End of life optimized to decrease the amount of waste and allow recovery of the product components and materials No special end-of-life treatment required. According to countries' practices this product can enter the usual end-of-life treatment process. Recyclability potential: 46% Based on "ECO'DEEE recyclability and recoverability calculation method" (version V1, 20 Sep. 2008 presented to the French Agency for Environment and Energy Management: ADEME).

Environmental impacts

Reference life time	20 years			
Product category	Switches			
Installation elements	No special components needed			
Use scenario	The product is in active mode with a power use of 0.025 W at 30% of the time for 20 years			
Geographical representativeness	Sweden			
Technological representativeness	The main function of Trend switch is to establish, support and interrupt current in normal conditions.			
Energy model used	Manufacturing	Installation	Use	End of life
	Manufacturing Plant: Ringsted, Denmark	Electricity grid mix 1kV-60kV; AC; consumption mix, at consumer; 1kV - 60kV; SE	Electricity grid mix 1kV-60kV; AC; consumption mix, at consumer; 1kV - 60kV; SE	Electricity grid mix 1kV-60kV; AC; consumption mix, at consumer; 1kV - 60kV;

Compulsory indicators		TREND SWITCH - WDE006617					
Impact indicators	Unit	Total	Manufacturing	Distribution	Installation	Use	End of Life
Contribution to mineral resources depletion	kg Sb eq	1.40E-04	1.40E-04	0*	0*	1.34E-07	0*

* represents less than 0.01% of the total life cycle of the reference flow

Life cycle assessment performed with EIME version EIME v5.7.0.3, database version 2016-11 in compliance with ISO14044.

The manufacturing phase is the life cycle phase which has the greatest impact on the majority of environmental indicators (based on compulsory indicators).

Please note that the values given above are only valid within the context specified and cannot be used directly to draw up the environmental assessment of an installation.

Registration number	ENVPEP1805013_V1	Drafting rules	PCR-ed3-EN-2015 04 02
Date of issue	06/2018	Supplemented by	PSR-0005-ed2-EN-2016 03 29
Validity period	5 years	Information and reference documents	www.pep-ecopassport.org
