

Wiser Energy Retrofit Solution

Providing real-time energy information of your customer's home

Square D Home Energy Monitoring System

Adding the Wiser Energy™ system to every solar installation will empower you to justify your customer's return on their investment, giving them valuable system information and peace of mind. Homeowners can save money by tracking their home's energy usage and production in real-time, increasing their satisfaction with your hard work. The Wiser Energy retrofit kit gives you all the great benefits of the Wiser Energy System with an installation option that keeps the original home's load center.

Features and benefits of the Wiser Energy System

Feature	Benefit
cULus-Listed, fully-integrated system	Trustworthy, innovative system housed beside existing electrical panel
Expandable up to 12 monitored touch points	More detailed and accurate results and data
Easily combine with existing electrical systems*	All-in-one solution with added protection for the customer
eSetup Commissioning app	Easy installation with step-by-step instructions
Wiser Energy user app	24/7, real-time homeowner access from anywhere via a mobile device
Square D customer support	Support for the installer as well as the homeowner

* Tested and listed for use in Square D QO™ and Homeline™ panels. Check with panel manufacturer for PLC compatibility.

Wiser Energy Provides:

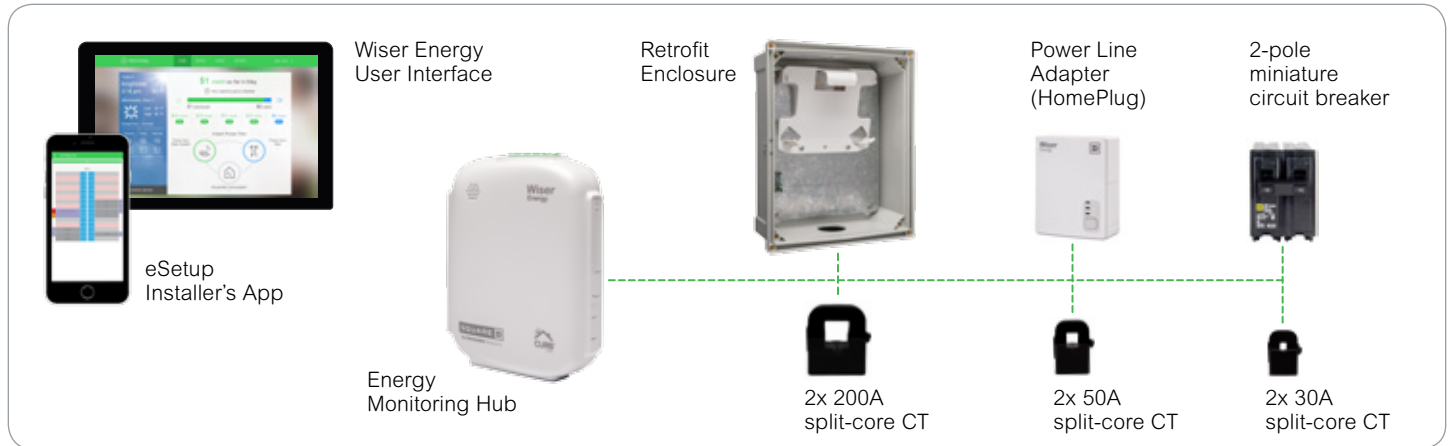

- Greater return on customers' solar investments by optimizing solar and reducing wasted energy
- Insight into the performance of your products
- Reduction in support calls, since homeowners can monitor an estimate of their monthly energy bill
- A competitive edge in a quickly changing market
