

Schneider Electric EVlink™ chargers

EVlink™ Level 2, 30 amp charging stations are quick to install, user-friendly, and provide a convenient, home-based electric vehicle charging solution right in your own garage.

EVlink™ chargers are designed to offer unlimited charging on a daily basis, and are equipped with advanced electrical protection to keep you safe. Enjoy simple, one-touch programming that makes charging a breeze and delivers smart savings for you and your family.

Questions about charge time?

Level 1	Home Outlet	Trickle charge – slowest charge available
Level 2	16 Amp	Slightly faster charge rate
Level 2	30 Amp	Charges about twice as fast as a Level 2, 16 Amp charging station
Quick Charge	Provides 80% of battery charge in about 30 minutes	

“EVlink charging stations are well designed and work flawlessly.”

– Residential Electric Vehicle Owner

Energy savings and efficiency delivered

At Schneider Electric, our goal is to build a sustainable world where we achieve more while using less of our planet. In Canada, Schneider Electric is best recognized by our 100-year-old brand, Square D™.

Extensive energy management expertise and strong industry relationships enable Schneider Electric to deliver innovative and efficient EV charging solutions.

- A global leader in smart-grid and energy efficiency initiatives.
- Industry-leading position in residential and commercial markets.
- Supported by a nationwide network of electrical contractors.
