Daylight Saving Time Feature in Powerlink® NF1000G3, NF2000G3, and NF3000G3 Level Controllers

Retain for future use.

Introduction

Powerlink® G3 controllers are designed with a Daylight Saving Time (DST) feature to conform to local DST regulations. When the DST feature is enabled, one hour is automatically added to the current local time at 2:00 AM on the day described as the beginning of the DST period. One hour is automatically subtracted from the current local time at 2:00 AM on the day described as the end of the DST period.

Setting Up DST Rules

1. Navigate to the CLOCK SETUP screen:
Main>Controller>Time/Date>Setup>Clock Setup
2. Enable or disable DST by positioning the cursor on DST Enabled, and pressing the controller + key to toggle between YES and NO.
3. Enter the DST SETUP screen by positioning the cursor over the DST Enabled path arrow and pressing the controller + key.
4. Choose appropriate values to create the rule for the beginning of daylight saving time.
 - Month** The month in which the event occurs.
 - Week** The week of the month in which the event occurs. Choose 1st, 2nd, 3rd, 4th, or LAST week of the month.
 - Day** The day of the week on which the event occurs.
5. Choose appropriate values to create the rule for the end of Daylight Saving Time.
6. Exit the DST SETUP screen to save the rules.
