

A woman with long brown hair, wearing a white floral-patterned t-shirt, is smiling and looking down at her hands. A young child with short brown hair, wearing a light blue t-shirt, is standing next to her, also smiling and looking at the woman's hands. They appear to be playing in a field of green grass and white flowers. The background is a soft-focus green field.

Schneider Electric Green Premium

An ecolabel that delivers much more than just compliance

Life Is On

Schneider
Electric

As the global specialist in energy management and automation, we create connected technologies that reshape industries, transform cities, and enrich lives.

devoted to R&D

Global recognition and engagement

We have been recognised for our efforts to reduce our own carbon footprint and energy consumption as well as lauded for meeting our customers' environmental performance needs

9th most sustainable corporation in the world¹

25th greenest company in the world²

"Industry Leader"
by the Dow Jones Sustainability Indices³

99/100 score in the CDP's Climate Disclosure Leadership Index⁴

Member of The Circular Economy 100 programme of the Ellen MacArthur Foundation

¹ Corporate Knights' 2015 "Global 100 Most Sustainable Corporations in the World" ranking

² Newsweek Green Rankings 2015

³ Ranked first in its sector for the second year in a row in the World and Europe Indices 2014

⁴ The Carbon Disclosure Project's 2014 Climate Disclosure Leadership Index

Our commitment

We enable environment-friendly growth and efficient use of resources by acting with transparency and accountability:

- **Preserving finite resources**
Delivering efficiency to help our customers and ourselves achieve more with less energy and fewer resources
- **Counteracting climate change**
Striving to help keep global warming under a 2°C limit
- **Protecting health**
Minimising the use of hazardous substances in line with, and in some cases beyond, international and local regulations

“Our ambition is to increasingly decouple our customers’ and our own revenues from energy and resource intensity”.

Xavier Houot, Group Environment
Senior Vice President

A group of people, including women and men, are gathered in what appears to be a community or outdoor setting. A woman in the center, wearing a blue and white patterned top and a blue shawl, is smiling broadly and looking towards the right. Other people are partially visible around her, some looking towards her. The background is slightly blurred, suggesting an outdoor environment.

Our commitment influences the design of our products and solutions, our supply chain, and our relationships with partners and customers around the world.

The information challenge

I want to know how I can save energy and to be sure that the electrical products in my home are safe.

How can I find this information?

@ home

I look for products that come with reliable and comprehensive data on their environmental impact.

How can I improve my company's performance and conserve resources?

@ work

My customers are asking for complete environmental information about the products we sell.

How do I meet their needs and grow our business?

partners

Green Premium Ecolabel

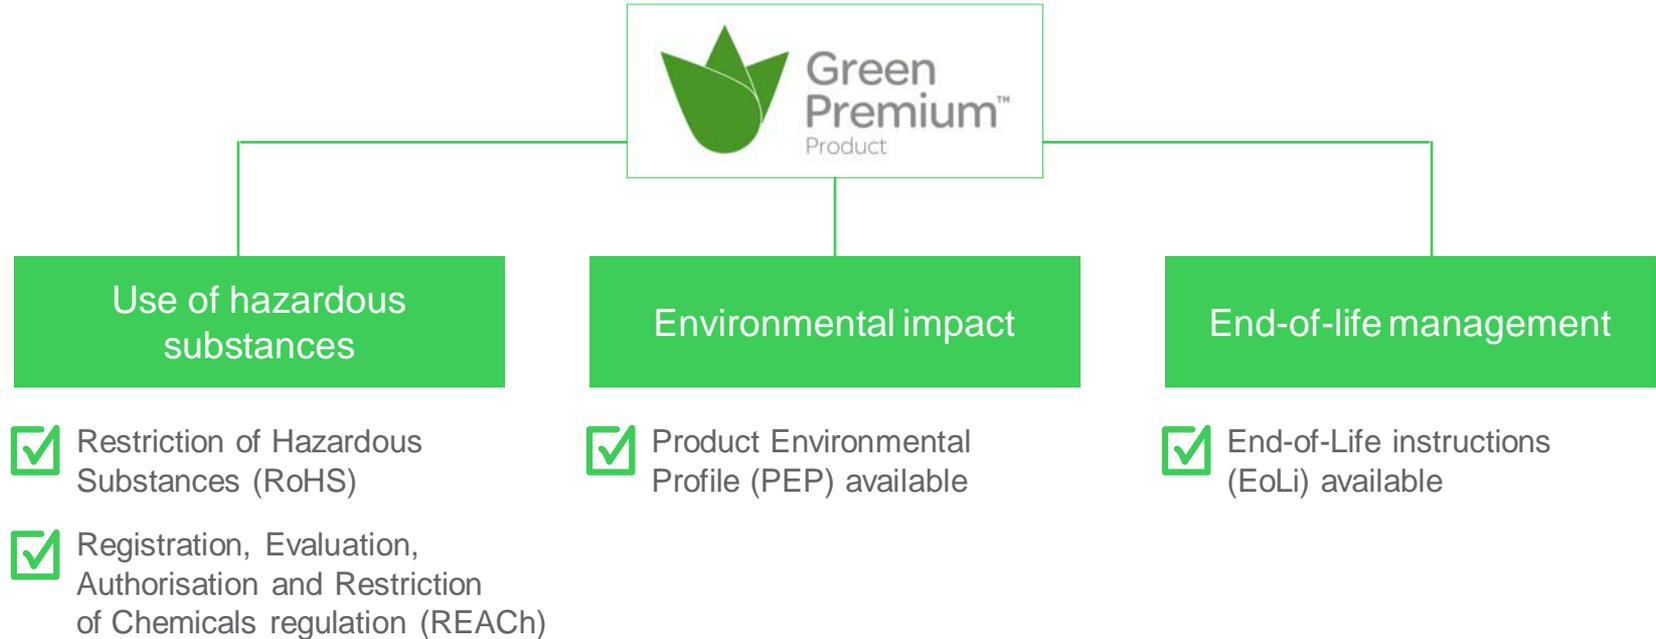

Schneider Electric products receive the Green Premium™ ecolabel by meeting a number of pre-defined regulations and conditions:

- **Superior transparency**
Complete and reliable information on the environmental impact of products, their resource efficiency, and end-of-life instructions
- **A guarantee of compliance**
Peace of mind and recognition for complying with a number of predefined regulations
- **Easy access to information**
Certificates and relevant product information available digitally on-demand, 24/7

A unique framework for transparency

Our Green Premium ecolabel encompasses a broad range of environmental criteria, meeting and exceeding international regulations and industry standards

The RoHS directive

The European Union's Restriction of Hazardous Substances (RoHS) directive

- Requires elimination of harmful chemical substances, such as lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB), and polybrominated diphenyl ether (PBDE) flame retardants
- Especially important for circuit breakers and other wiring devices found in homes and offices

The REACh regulation

The European Union's Registration, Evaluation, Authorisation and Restriction of Chemicals regulation

- We comply with the strictest regulation for sourcing and use of chemical substances identified as potentially harmful to human health and the environment
- In line with the regulation, we develop and communicate plans for replacement of chemical Substances of Very High Concern (SVHC)

Product Environmental Profile (PEP)

Comprehensive data on the environmental impact of Schneider Electric products

- We provide detailed information on the raw materials used in our products, their recyclability, and environmental impact on all the key stages of the product life cycle
- The PEP is especially useful for companies seeking to monitor, control, save energy, and/or reduce their carbon emissions.

End-of-Life Instructions (EoLi)

Information on the end of a product's life cycle, recyclability rate, and bill of material

- End-of-Life instructions provide complete guidance on the responsible disposal of our products and reusing parts of equipment for other purposes (recycling) towards a more circular economy
- End-of-Life instructions help our customers reduce environmental hazards and improve their operational efficiency

A woman with blonde hair, wearing large gold hoop earrings, a dark blazer, and a red and blue patterned scarf, is smiling and looking down at her white smartphone. The background is a blurred indoor setting with other people. A green horizontal bar is overlaid across the middle of the image, containing white text.

Thanks to comprehensive information about our Green Premium products, you can make more sustainable, environmentally conscious decisions.

Check-a-product online functionality

An easy-to-use online tool for finding complete information on Green Premium products

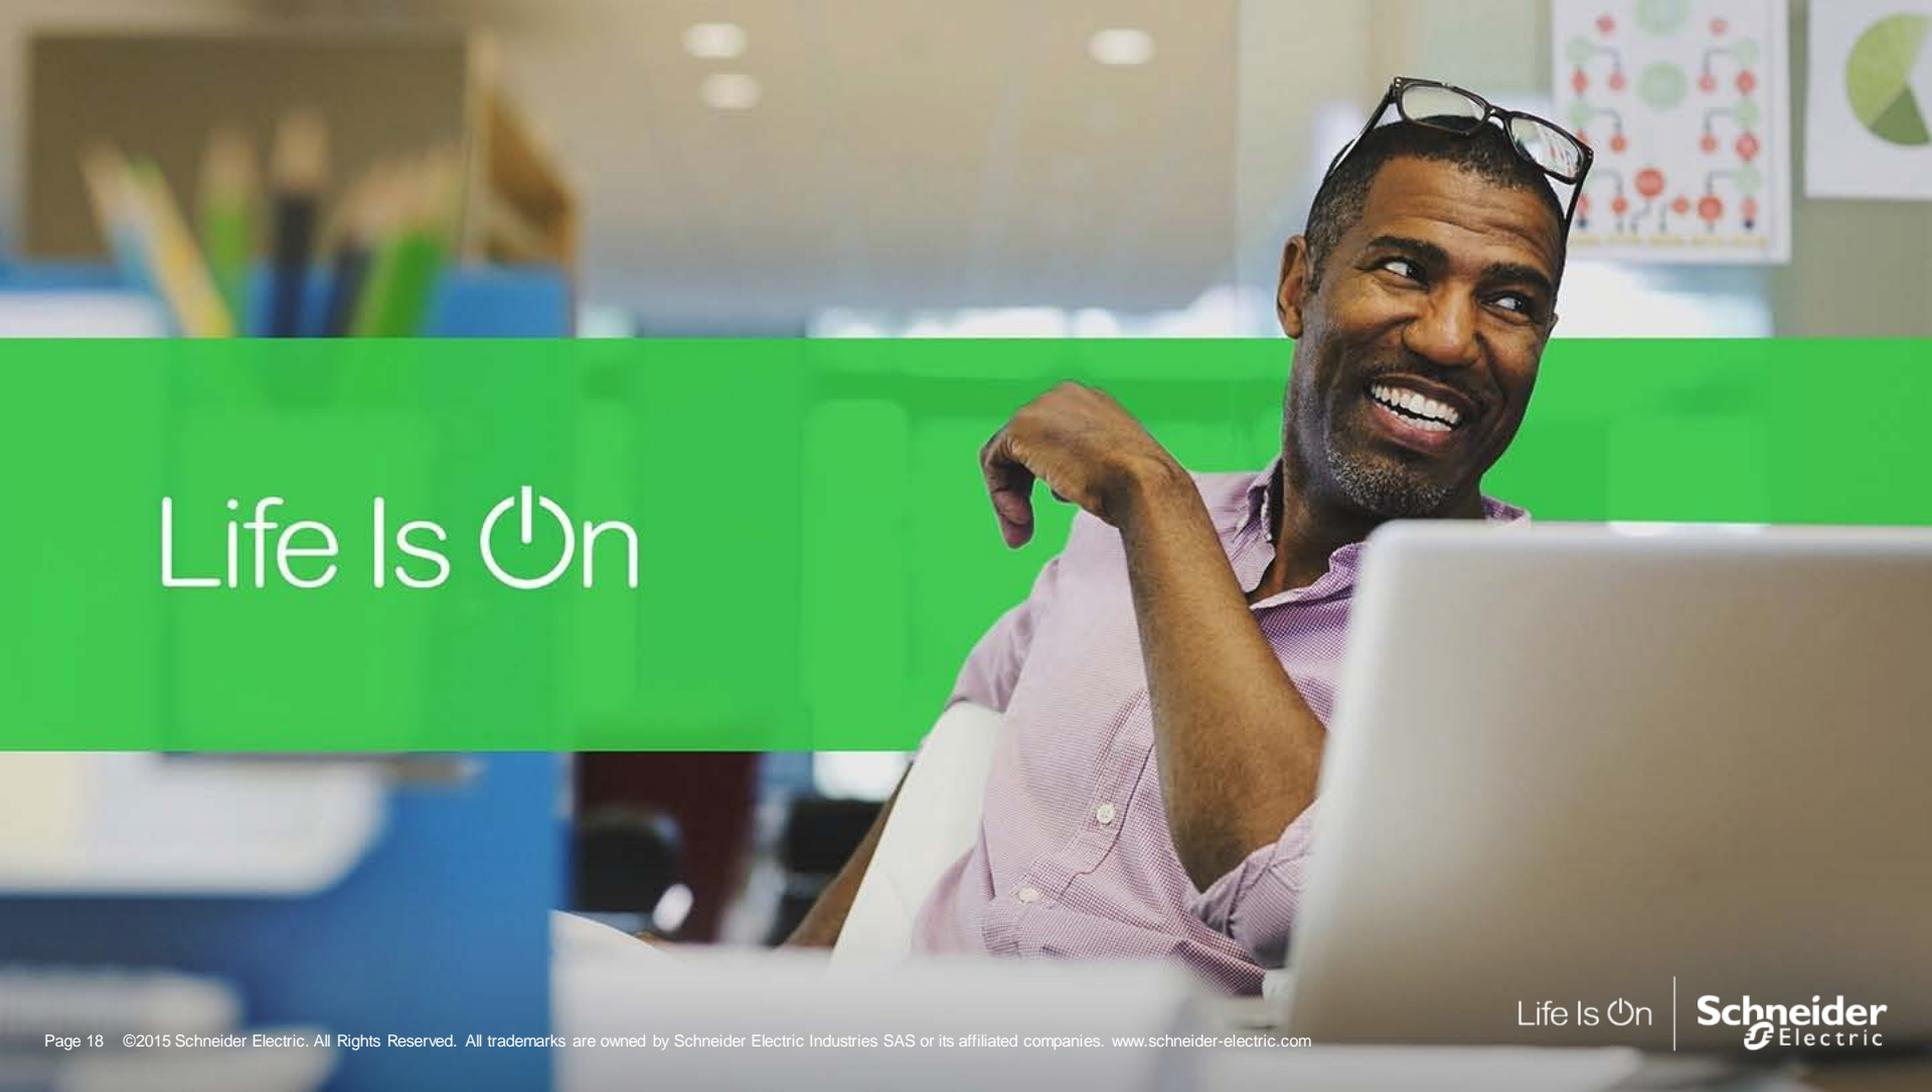

- A dedicated, user-friendly resource for finding and retrieving comprehensive information about Green Premium products from Schneider Electric: RoHS and REACH compliance certificates as well as Product Environmental Profile and End-of-Life instructions
- Also available through the Customer Care by Schneider Electric app for instant, on-demand access from mobile devices

Today, nearly 75% of our product sales come from Green Premium products that offer you superior transparency and environmental stewardship.
