

# Wiser™

Connected Technology for Homes

## Introducing: Astro

### Sunrise & Sunset Trigger for your Moments

We're pleased to announce the launch of the brand new Wiser feature: **Astro Triggers**.

A popular feature request in previous months, we're thrilled to be deploying. Available now in your Wiser Mobile App.

The feature is part of our continuous improvement commitment and will continue to evolve in the coming months.

# Astro

## Sunrise & Sunset Trigger for your Moments

### What can I do with this feature?

As a Wiser Home user, you will now be able to create Astro schedules triggered by your favorite Moments.

With this feature, you will be able to:

- set a trigger for a Moment to follow sunrise in your location
- set a trigger for a Moment to follow sunset in your location

from your mobile app.

### Where can I find this feature?

The Astro feature can be found in your Moments. You can see it when adding 'When' trigger to a Moment.

To add the feature:

1. Long-press an existing moment or create a new one by pressing the +
2. Define 'What' action
3. Define 'When' and select either **sunrise** or **sunset**
4. Have fun

### Use case example:

You want the bedroom shutters to automatically open at sunrise or close at sunset.

**Note:** This feature will not impact the behavior of your previously set up Moments.

# What else is new?

## System Limits Light & Shutter Devices

When you upgrade to the latest version of the Wiser app you will now see an increase in the number of Light & shutter devices you can commission.

The Wiser Home Touch now allows you to connect and control up to 32 lights and shutter devices. Simply plug it in and use the Wiser Mobile app to add and control your lights and create your favorite moments.
