

To read carefully before installation of  
TCSEGPA23F14F and  
TCSEGPA23F14FK  
**in an M580 configuration**

**For M580 ePAC, it is necessary to build the  
application with Unity Pro V8.1 or higher version.**

Documentation "*PROFIBUS Remote Master V1.2 -  
Release Notes*" will be updated in a future version with  
this information.
