

Main

- Indoor presence detection.
- ARGUS switches on the light and leaves it switched on until presence is no longer detected or the ambient brightness is sufficient. Can be used in offices, schools, public buildings or homes, for example. The detector is installed in or on the ceiling.
- For installation on the ceiling in a 60 mm installation box. Optimum height 2.50 m.
- The surface-mounted housing, art. no. MTN550619, allows the presence detector to be mounted on non-suspended ceilings.

When connecting the nominal voltage or short-term interruption of the power supply (e.g. with a push-button connected as a make contact), the device switches channel 1 on for one minute plus the set time, regardless of the level of light. Other features and attributes as for ARGUS Presence, art. no. MTN550590.

Complementary

For channel 1, the functions "Permanent ON", "Permanent OFF" and "Automatic" can be controlled with the IR remote control.

Accessories: Surface-mounted housing for Argus Presence, art. no. MTN550619.

Transmitter: IR remote control Distance, art. no. MTN570222.

Colour: polar white
