

MAIN ASSEMBLIES

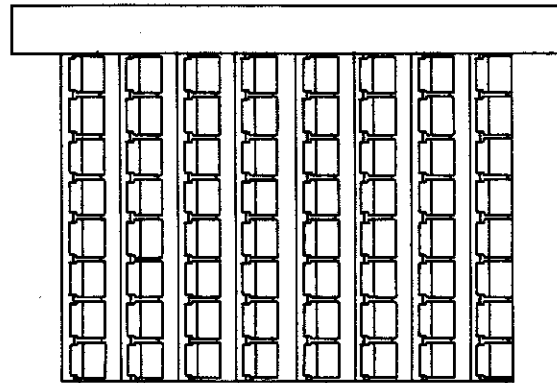

P190 PROGRAMMER

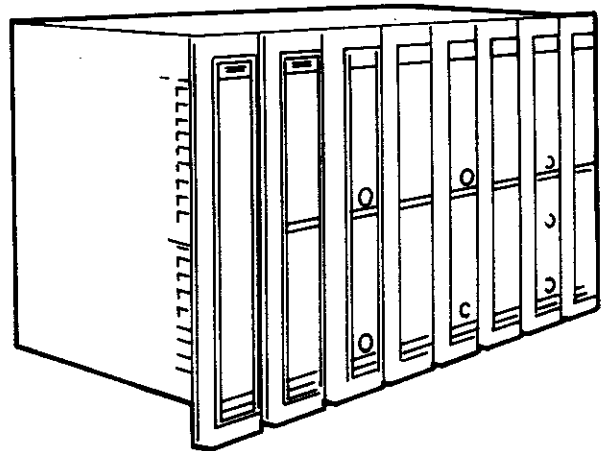

200 SERIES I/O

584 CONTROLLER

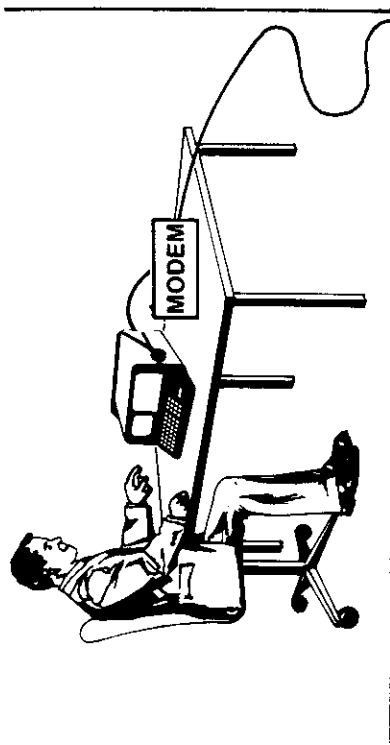

500 SERIES I/O

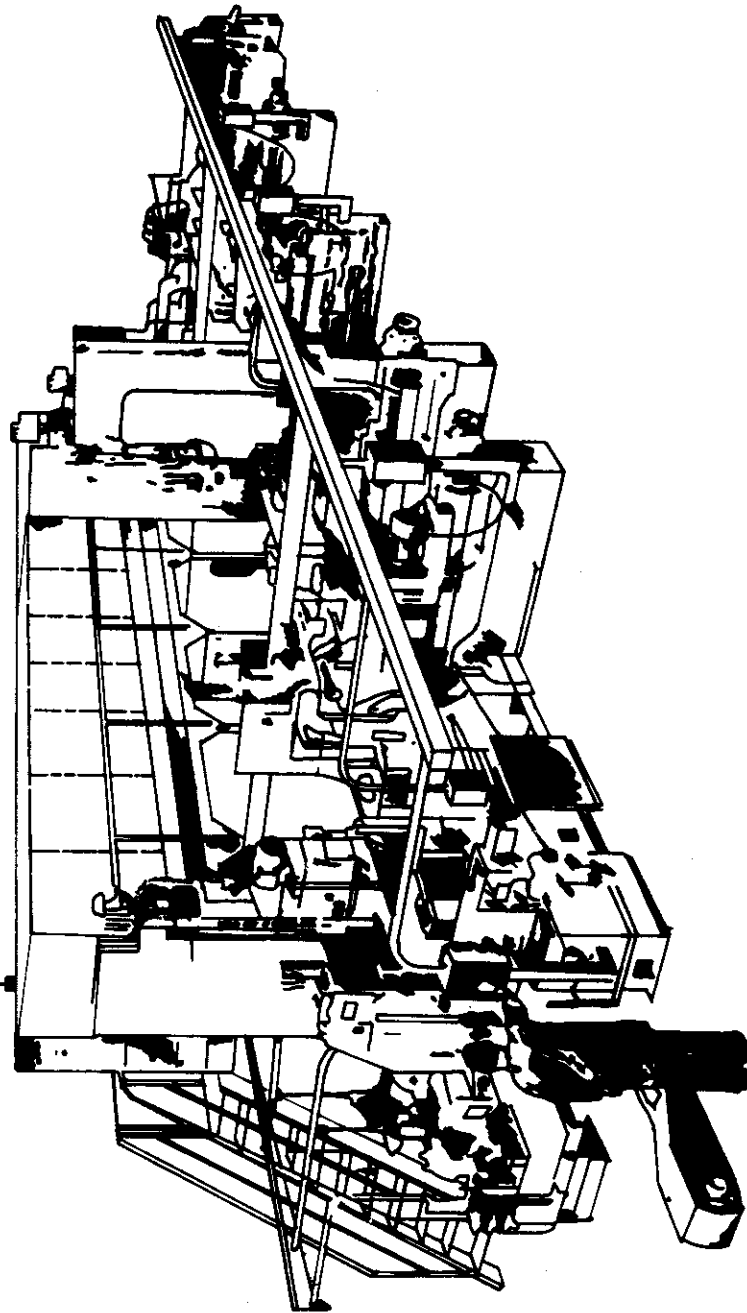

800 SERIES I/O

BASIC 584 SYSTEM

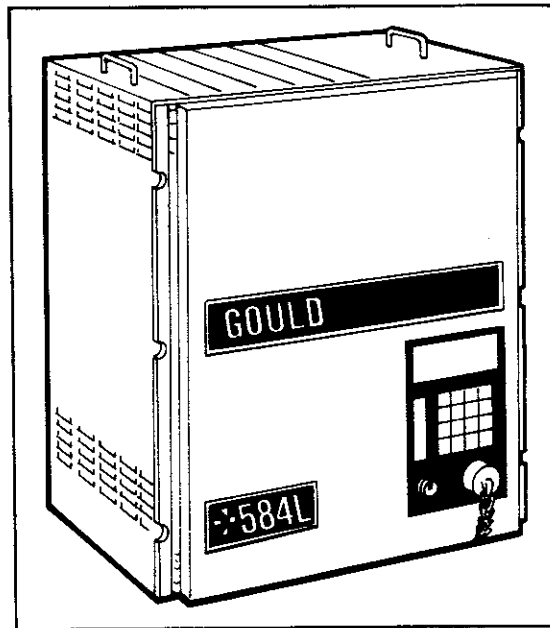

584 Control Functions

- Read inputs
- Solve logic (user program)
- Set outputs

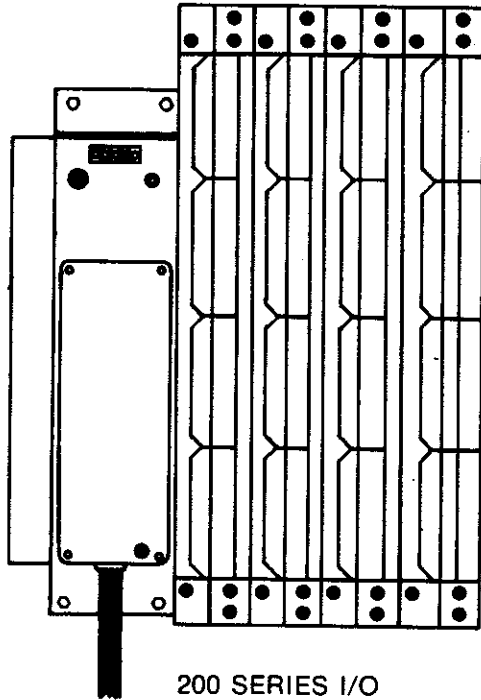

GOULD 584 PROGRAMMABLE CONTROLLER

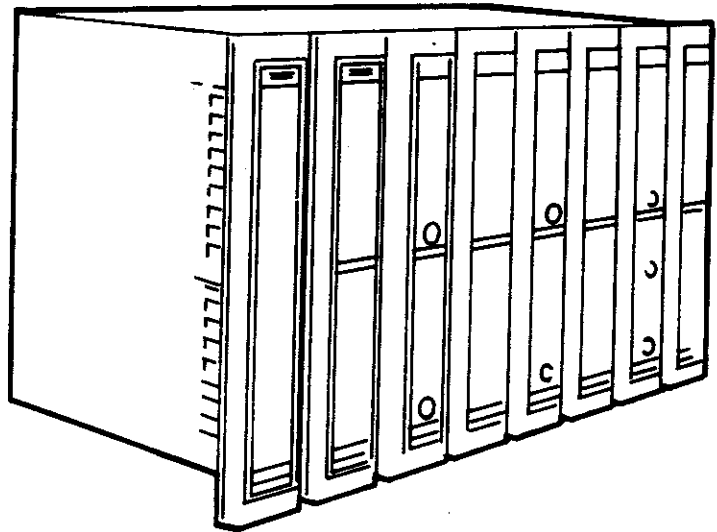

- Reads inputs
- Solves user logic
- Sets outputs
- Ruggedized industrial construction
- 50 to 2000 plus relay equivalency
- Diagnostic monitor
- Report generator
- Replaces minicomputers
- On-line programmed
- Network compatible
- Modular design

200, 500 AND 800 SERIES I/O

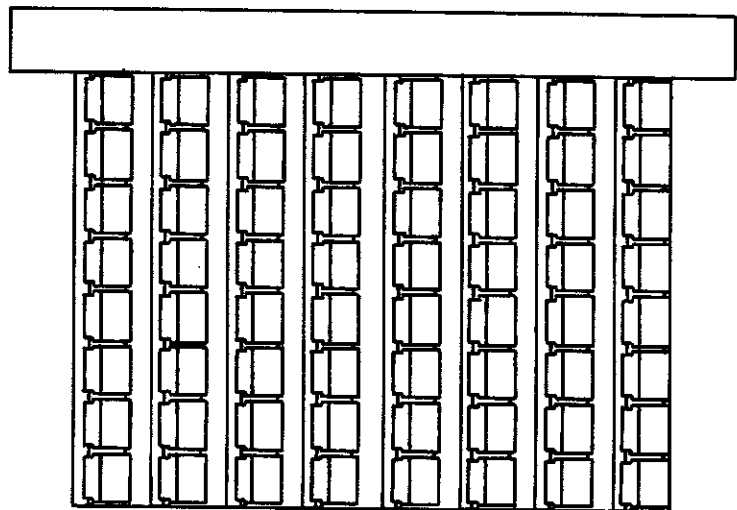

200 SERIES I/O

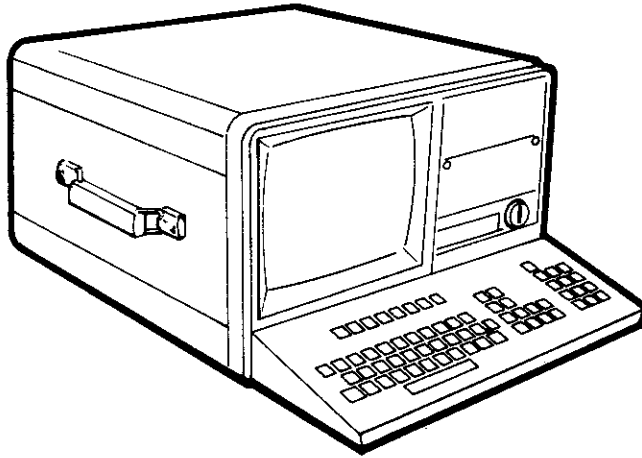

800 SERIES I/O

- Discrete input & output
- Register input and output
- Analog input and output
- High speed counters
- Isolated modules
- Specialty modules

500 SERIES I/O

P190 PROGRAMMER

P190 PROGRAMMER

- Provides for program entry & modification
- Provides for I/O addressing
- Provides for entry of communications parameters
- Provides on-line monitoring of power flow
- Provides for program archives on magnetic tape
