

## What's New in PowerLogic™ ION8600 version 340

This document describes the latest updates in firmware version 340 (v340) for the PowerLogic™ ION8600 energy and power quality meter.

### Additional information and resources

Visit [www.schneider-electric.com](http://www.schneider-electric.com) to download the firmware upgrade files and related resources.

- The firmware upgrade files.
- The latest version of ION Setup to support the new features.
- The latest user manual, datasheets and installation sheets.

### New display support

Firmware version 340 supports the new display board included with the PowerLogic™ ION8600 field retrofit kit for the ION8600 socket and switchboard meters.

**NOTE:** The new display option is only available as part of the PowerLogic™ ION8600 field retrofit kit. Refer to the *PowerLogic ION8600 Energy and power quality socket meter field retrofit instructions* or *PowerLogic ION8600 Energy and power quality switchboard meter field retrofit instructions* for information regarding the replacement of the ION8600 display board.
