

# Updating InfraStruXure Manager

Use the following procedure to update an InfraStruXure Manager Appliance (v4.2-up):

1. Log on to the server.
2. If necessary, verify that an appropriate update is available:
  - a. Select **Check for Updates** in the **Updates** menu.
  - b. In the “Check for Updates” display, make sure that the **I want to know when server or client updates are available** option is enabled (checkmarked), and click **Check for Updates Now**. This will initiate an immediate check of the APC Web site for server and device firmware updates.

Note

A message about a server update will appear only when an appropriate update file is available for download from the APC Web site.

3. Select **Apply Server Update** in the **Updates** menu.
4. In the “Apply Server Update” display, click **Help** for information about how to do all of the actions needed to apply the update to your server:
  - a. Enable FTP at the InfraStruXure Manager server.
  - b. Download the update file to your InfraStruXure Manager client.
  - c. Use FTP in binary mode to transfer the update file to the InfraStruXure Manager server.
  - d. Apply the update.

# APC Worldwide Customer Support

Customer support for this or any other APC product is available at no charge in any of the following ways:

- Visit the APC Web site to access documents in the APC Knowledge Base and to submit customer support requests.
  - [www.apc.com](http://www.apc.com) (Corporate Headquarters)  
Connect to localized APC Web sites for specific countries, each of which provides customer support information.
  - [www.apc.com/support/](http://www.apc.com/support/)  
Global support searching APC Knowledge Base and using e-support.
- Contact an APC Customer Support center by telephone or e-mail.
  - Regional centers:

Direct InfraStruXure Customer Support Line	(1)(877)537-0607 (toll free)
APC headquarters U.S., Canada	(1)(800)800-4272 (toll free)
