

NetShelter® SX Enclosure with 1250-lb Rated Packaging

Guide for Receiving, Unpacking, and Moving

Important. Save these instructions. This guide contains information for receiving, unpacking, and moving the equipment.

Safety Information

Moving the equipment

Heavy: Do not attempt to move the enclosure without assistance. The recommended equipment to move the enclosure while it is still on its shipping pallet includes the following:

Pallet jack

Forklift

Warning: Use caution when moving the enclosure on its casters.

Push the enclosure from the front or back to move it.

Receiving

Inspect the exterior packaging

Before unpacking the shipment, verify that the labeled boxes match the bill of lading and carefully inspect the exterior of the shipment immediately upon receipt.

Inspect the equipment

Once you have unpacked the enclosure, carefully inspect it for visible signs of shipping damage. If you detect shipping damage, contact APC Customer Support at the number listed on the yellow label on the front of the enclosure or on the back cover of the enclosure's *Installation* manual.

Tools Required

Utility Knife

13-mm open-ended wrench

Unpacking

Caution: Leaving the equipment uncovered and exposed to the elements will cause damage and void the factory warranty.

Recyclable materials: The shipping materials are recyclable. Save them for later use, or dispose of them appropriately.

Note: When possible, leave the equipment on the pallet until you are ready to move it to its final location.
